MONTANA PUBLIC HEALTH LABORATORY
Laboratory Services Bureau
800-821-7284

Medical Logistic Solutions (MLS) has the current contract for both routine and emergency pickups of specimens of public health significance. MLS will transport specimens from patients under investigation as having suspect Ebola Virus Disease. Specimens must be properly packaged as a suspect Category A agent.

Courier drivers are stationed around the state, and there are at least five routes that feed into Helena on a routine basis.

There may be occasions when a sample/specimen must be delivered on an emergency basis, outside of regular pickup arrangements. MLS will provide emergency pickup services within 2 hours plus reasonable travel from time of notification. To arrange for a pickup, contact the MTPHL at 800-821-7284.
