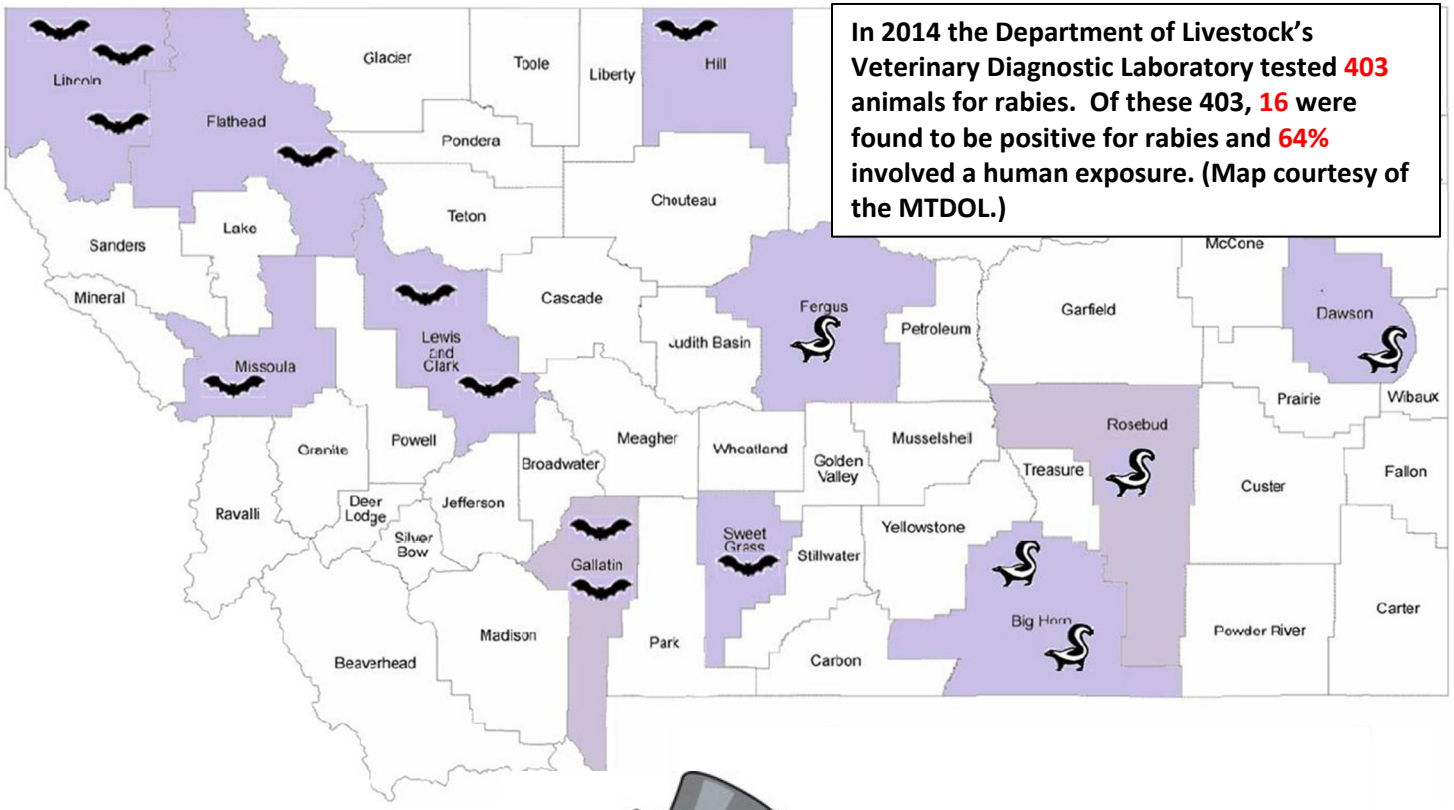
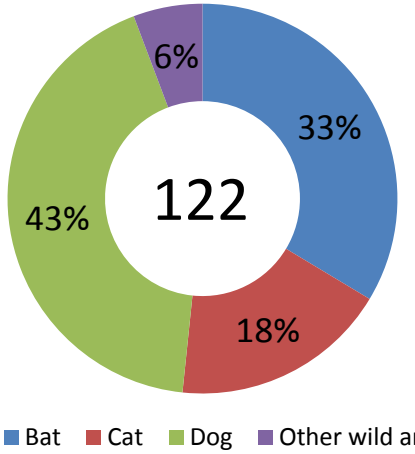
2014 Montana Rabies Distribution by Species



In 2014 the Department of Livestock's Veterinary Diagnostic Laboratory tested 403 animals for rabies. Of these 403, 16 were found to be positive for rabies and 64% involved a human exposure. (Map courtesy of the MTDOL.)



122 individuals were treated with the rabies post-exposure prophylaxis in 2014.

Estimated cost per person for the rabies post-exposure series is $2000 to $7000.
