NOTE: There are potential limiting factors likely resulting in the calculation of >100% for the 60-69 and 70-79 age groups:
1) Population estimates are from 2019 and may be lower than 2021 numbers.
2) Due to excellent outreach in the county, some doses administered may have been given to out-of-state or out-of-country residents but due to missing residence information, they are defaulted to county of administration (in this case, Glacier).

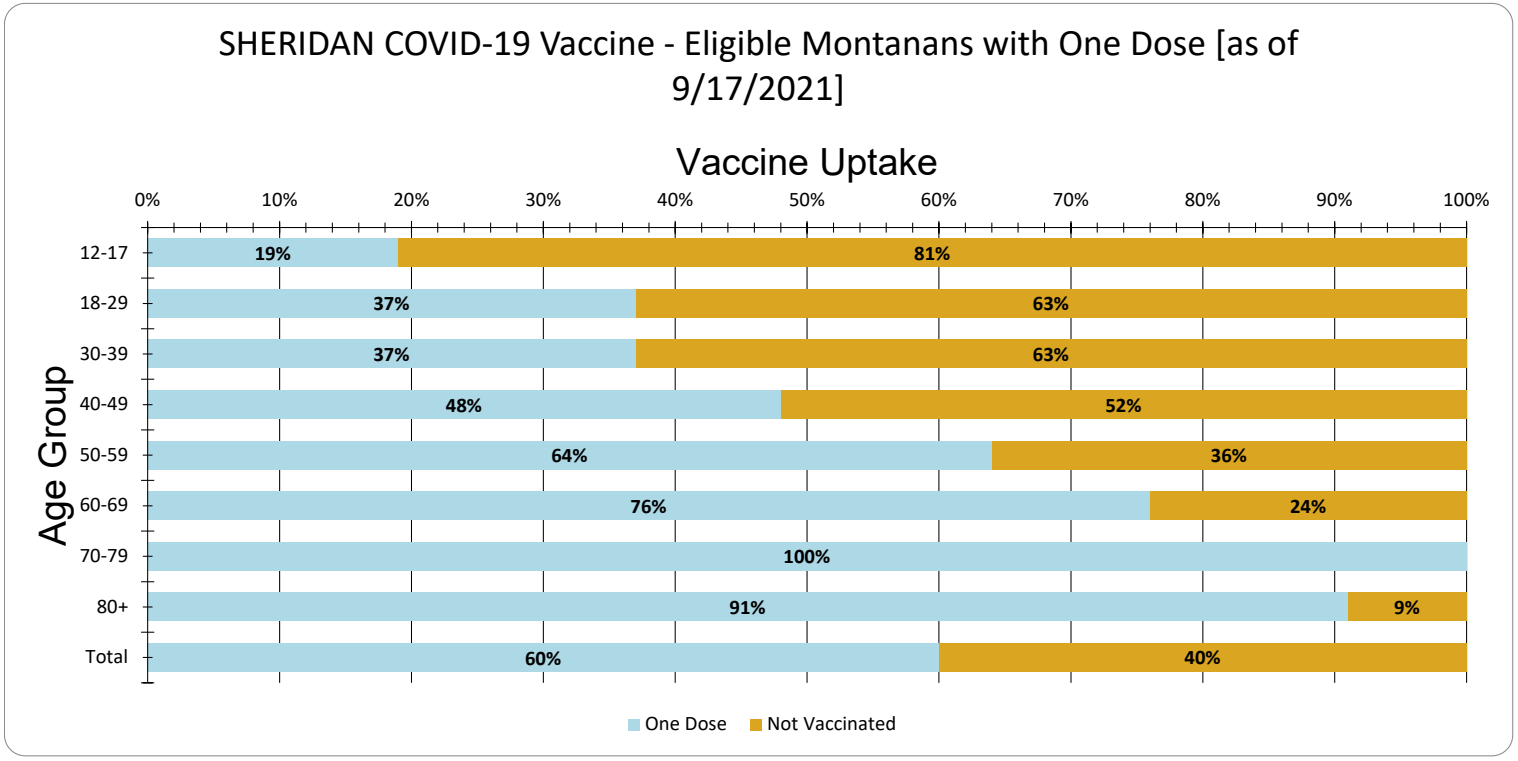
70-79	100%	0%
80+	91%	9%
Total	60%	40%



NOTE: There are potential limiting factors likely resulting in the calculation of >100% for the 70-79 age group:
1) Population estimates are from 2019 and may be lower than 2021 numbers.
2) Due to excellent outreach in the county, some doses administered may have been given to out-of-state or out-of-country residents but due to missing residence information, they are defaulted to county of administration (in this case, Glacier).
