

# Rabies ROADSHOW

2024

The Rabies Roadshow is a repeated educational training on Rabies Management. It is presented by the Montana Department of Public Health and Human Services Communicable Disease Epidemiology and the Montana Department of Livestock.

## What is my role in managing rabies exposures?

The scope of this training will educate public health professionals and their rabies response partners regarding the investigation and management of potential rabies exposures. These modules will give attendees the knowledge and resources necessary to successfully manage potential rabies exposures. Attendees will participate in rabies scenario exercises as a group.

## Who should attend?

- Public Health Staff
- Healthcare Providers
- Law Enforcement
- Animal Control Staff
- Nurses
- Veterinarians

## Continuing Education Credits

Approval in process

- POST credits
- Nursing credits
- Sanitarian credits
- Veterinarian credits

## Locations

Kalispell  
May 23, 2024

Bozeman  
June 5, 2024

The training will start at 9:00 am on the selected day and will conclude at 4 pm to allow for same-day travel. There is no charge to attend the training. However, all travel costs are the responsibility of the attendee.

## Registration is Required

Please be sure to complete one registration for each person attending the training by clicking the link. Please complete registration at least one day in advance of training, as space is limited.
