

HCBS Risk Prevention, Assessment and Management Plan

Individual's Name:

Medicaid Number:

Consider normal and unusual risks in each area and discuss preventative measures, as well as strengths and assets you have to address the issue. The Addictive and Mental Disorders Division (AMDD) values the balancing of rights and risks. The AMDD requires you and your case management team to make good choices in implementing reasonable safety and prevention measures. The Risk Prevention, Assessment and Management Plan should be attached to your Person Centered Recovery Plan (PCRP).

List specific risks and frequency of risks	How do you evaluate the risk? (high, medium, low) What are the potential outcomes of the risk?	What can be done to prevent these risks? What strengths and assets do you have to help with prevention?	Who can help you with preventive measures?	What support services can help you reduce the risk?	How can your POC help reduce this risk?
