

Indicator 1: Timely Provision of Services

Monitoring Priority: Early Intervention Services In Natural Environments

Compliance indicator: Percent of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner. (20 U.S.C. 1416(a)(3)(A) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target	100%	100%	100%	100%	100%	100%

Measurement:

Percent = [(# of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner) divided by the (total # of infants and toddlers with IFSPs)] times 100.

Account for untimely receipt of services, including the reasons for delays.

FFY	Measurable and Rigorous Target
FFY 2014	100% of infants and toddlers with IFSPs will receive the early intervention services on their IFSPs in a timely manner.

REPORT OF PROGRESS – INDICATOR 1

	early intervention services in a timely manner.	early intervention services in a timely manner due to documented exceptional family circumstances.	who received early intervention services on their IFSPs in a timely manner or there was a documented exceptional family circumstance that prevented timely service delivery.	service delivery for reason other than documented exceptional circumstances.
	35	0	100%	0
<ul style="list-style-type: none"> 10/10 files reviewed by the provider agency noted infants and toddlers with IFSPs receive the early intervention services in a timely manner (30 days). 25/25 files reviewed by the Quality Improvement Specialist (QIS) noted Support and Service contacts correlate with frequency and intensity of services indicated in the IFSP; support and service summaries reflect activities related to IFSP outcomes and strategies; and that every effort is made to reschedule missed home visits or the IFSP is updated to reflect changes in the frequency/intensity of services. 				

Methods Used in Collection of Data:

Data is based on two methods of data collection with each Part C provider agency. The two different data collection methods and schedules cover the delivery of services throughout FFY 2014 including both children with their initial IFSP as well as children with subsequent IFSPs.

Method 1: A survey method, following specific State Part C protocol, was used to collect data from the Part C provider agency from children’s files for the Federal Fiscal Year of July 1, 2014 through June 30, 2015 and submitted to Montana’s Part C Coordinator. The agency randomly selected a specified number of files based on the number of infants and toddlers served throughout the year. The collection provides the State a proportional representation by geographical region of the whole population served in Montana’s Part C. After the selection of random files, data was reviewed to document compliance to timely provision of services for each file.

Data from Regional Part C agencies Sampling and Reporting for the APR Information:

- 10/10 files randomly selected using the *Research Randomizer Program* indicated infants and toddlers received Part C early intervention services within 30 days of parent(s) signing IFSP.

The definition and procedures/instructions ensure uniform implementation of data collection protocol. Each of the seven Part C provider agencies reported data to the Part C Coordinator who reviewed data for compliance and compiled the data for the APR. Each of the seven regional Part C provider agencies maintains a record for **Indicator 1** to include the identification of the children/families randomly selected so that the Quality Improvement Specialist may verify the accuracy (reliability and validity) of the data submitted. This will be completed during the following monitoring cycle.

Method 2: The second method was annual on-site and EI Module monitoring by Montana’s Part C Quality Improvement Specialist (QIS) using Montana’s newly created Comprehensive Monitoring Tool

DEAP – Part C Early Intervention Annual Performance Report

**FFY
2014**

for Part C Early Intervention for FFY 2014. The QIS individually performed a review using Montana’s Early Intervention Module (Montana’s electronic system for data collection from IFSPs and Child Outcome Summaries) and scheduled on-site monitoring.

Data from Montana’s Comprehensive Monitoring Tool:

- 25/25 files reviewed by the Quality Improvement Specialist noted Part C early intervention services were provided in a timely manner.

Indicator 2: Services in Natural Environments

Monitoring Priority: Early Intervention Services In Natural Environments

Results indicator: Percent of infants and toddlers with IFSPs who primarily receive early intervention services in the home or community-based settings. (20 U.S.C. 1416(a)(3)(A) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target ≥	97%	97%	98%	98%	99%	99%

Measurement: Percent = [(# of infants and toddlers with IFSPs who primarily receive early intervention services in the home or community-based settings) divided by the (total # of infants and toddlers with IFSPs)] times 100.

DEAP met the target for FFY 2014. Actual Target Data for FFY 2014 (July 1, 2014 – June 30, 2015).

FFY	Measurable and Rigorous Target
FFY 2014	97% of infants and toddlers with IFSPs will primarily receive early intervention services in the home or programs for typically developing children.

Indicator 3: Early Childhood Outcomes

Monitoring Priority: Early Intervention Services In Natural Environments

Results indicator: Percent of infants and toddlers with IFSPs who demonstrate improved:

- A. Positive social-emotional skills (including social relationships);
- B. Acquisition and use of knowledge and skills (including early language/ communication); and
- C. Use of appropriate behaviors to meet their needs.

(20 U.S.C. 1416(a)(3)(A) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target A1 ≥	59%	72%	72%	73%	73%	74%
Target A2 ≥	53%	63%	63%	64%	64%	65%
Target B1 ≥	61%	72%	72%	73%	73%	74%
Target B2 ≥	44%	56%	56%	57%	57%	58%
Target C1 ≥	67%	73%	73%	74%	74%	75%
Target C2 ≥	52%	64%	64%	65%	65%	66%

Measurement:

A. Positive social-emotional skills (including social relationships):

- a. Percent of infants and toddlers who did not improve functioning = [(# of infants and toddlers

who did not improve functioning) divided by (# of infants and toddlers with IFSPs assessed)] times 100.

- b. Percent of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers = [(# of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- c. Percent of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it = [(# of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- d. Percent of infants and toddlers who improved functioning to reach a level comparable to same-aged peers = [(# of infants and toddlers who improved functioning to reach a level comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- e. Percent of infants and toddlers who maintained functioning at a level comparable to same-aged peers = [(# of infants and toddlers who maintained functioning at a level comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.

If a + b + c + d + e does not sum to 100%, explain the difference.

B. Acquisition and use of knowledge and skills (including early language/communication):

- a. Percent of infants and toddlers who did not improve functioning = [(# of infants and toddlers who did not improve functioning) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- b. Percent of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers = [(# of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- c. Percent of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it = [(# of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- d. Percent of infants and toddlers who improved functioning to reach a level comparable to same-aged peers = [(# of infants and toddlers who improved functioning to reach a level comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- e. Percent of infants and toddlers who maintained functioning at a level comparable to same-aged peers = [(# of infants and toddlers who maintained functioning at a level comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.

If a + b + c + d + e does not sum to 100%, explain the difference.

C. Use of appropriate behaviors to meet their needs:

- a. Percent of infants and toddlers who did not improve functioning = [(# of infants and toddlers who did not improve functioning) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- b. Percent of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers = [(# of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers) divided by the (# of infants and toddlers with IFSPs assessed)] times 100.
- c. Percent of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it = [(# of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it) divided by the (# of infants and toddlers with IFSPs assessed)] times 100.
- d. Percent of infants and toddlers who improved functioning to reach a level comparable to same-aged peers = [(# of infants and toddlers who improved functioning to reach a level comparable to same-aged peers) divided by the (# of infants and toddlers with IFSPs assessed)] times 100.
- e. Percent of infants and toddlers who maintained functioning at a level comparable to same-aged peers = [(# of infants and toddlers who maintained functioning at a level comparable to same-aged peers) divided by the (# of infants and toddlers with IFSPs assessed)] times 100.

Summary Statements for Each of the Three Outcomes:

Summary Statement 1: Of those infants and toddlers who entered or exited early intervention below age expectations in each Outcome, the percent who substantially increased their rate of growth by the time they turned 3 years of age or exited the program.

Measurement for Summary Statement 1: Percent = # of infants and toddlers reported in progress category (c) plus # of infants and toddlers reported in category (d) divided by [# of infants and toddlers reported in progress category (a) plus # of infants and toddlers reported in progress category (b) plus # of infants and toddlers reported in progress category (c) plus # of infants and toddlers reported in progress category (d)] times 100.

Summary Statement 2: The percent of infants and toddlers who were functioning within age expectations in each Outcome by the time they turned 3 years of age or exited the program.

Measurement for Summary Statement 2: Percent = # of infants and toddlers reported in progress category (d) plus [# of infants and toddlers reported in progress category (e) divided by the total # of infants and toddlers reported in progress categories (a) + (b) + (c) + (d) + (e)] times 100.

Outcome 3, Summary Statement 2: DEAP did not meet FFY 2014 target.

Ongoing State-wide Remediation Required:

As expected, based upon Montana’s analysis for the SSIP, Phase I, outcomes data collected for FFY 2014 showed variances in outcomes measurements among all early intervention providers with ratings previously identified as possibly inflated beginning to decline. Continued analysis and monitoring by the Part C Coordinator and individual providers is required as the Part C office continues to analyze data recorded for validity and reliability. Ongoing quarterly calls combine instruction, reflection, and planning to enhance understanding of outcomes measurements and move toward quality ratings. Each provider is responsible for “drilling” further into Child Outcomes data quarterly.

Montana is participating in the Child Outcomes Cohort. Beginning July 2016, all early intervention program providers will receive intensive professional development about the Child Outcomes Summary Process. This will include recommended practices of measuring Child Outcomes based upon Montana’s Outcomes guidance and the ECTA Center’s individualized modules for the Child Outcomes Summary Process. The intensive three-day train the trainer event was held in April 2016 to prepare individual early intervention program providers’ chosen trainers as they plan the implementation and evaluation of the systemic Child Outcomes Summary Process training at each agency. This concentrated professional development, with the support of OSEP Technical Assistance Centers, will advise Early Intervention program providers’ leadership and Family Support Specialists about the Decision Tree, the integration and interconnectedness of the IFSP outcomes and the three global Child Outcomes as well as engage families within the Child Outcomes Summary Process.

As Montana moves through the SSIP with a dedicated improvement strategy for the Child Outcomes Summary Process and continues to focus upon data collection, analysis, and decision-making based upon analysis, Montana will move closer to valid, reliable data to adjust our Child Outcome targets.

Indicator 4: Family Involvement

Monitoring Priority: Early Intervention Services In Natural Environments

Results indicator: Percent of families participating in Part C who report that early intervention services have helped the family:

- A. Know their rights;
- B. Effectively communicate their children's needs; and
- C. Help their children develop and learn.

(20 U.S.C. 1416(a)(3)(A) and 1442)

DEAP – Part C Early Intervention Annual Performance Report

2014**

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target A ≥	93%	93%	94%	94%	95%	95%
Target B ≥	93%	93%	94%	94%	95%	95%
Target C ≥	88%	93%	94%	94%	95%	95%

The State implemented a different interviewing structure in FFY 2014 for Quality Improvement Specialists to conduct with families as well as the requirement that all families are provided opportunities to view Montana's Part C Early Intervention Procedural Safeguards video when they initially enter supports and services and then again annually. The use of the Family Survey created by the Office of Special Education Programs, Early Childhood Technical Assistance Center, will be implemented in FFY 2015.

Measurement:

- A. Percent = [(# of respondent families participating in Part C who report that early intervention services have helped the family know their rights) divided by the (# of respondent families participating in Part C)] times 100.
- B. Percent = [(# of respondent families participating in Part C who report that early intervention services have helped the family effectively communicate their children's needs) divided by the (# of respondent families participating in Part C)] times 100.
- C. Percent = [(# of respondent families participating in Part C who report that early intervention services have helped the family help their children develop and learn) divided by the (# of respondent families participating in Part C)] times 100.

34	33	97%

Data from Montana’s Comprehensive Monitoring Tool:

As part of Montana’s general supervision monitoring, the Quality Improvement Specialist (QIS) reviewed 12 randomly selected files of children and families receiving Part C services from your agency and interviewed that sample of families who received Part C services to determine the impact of their satisfaction with Part C services. During the past year, 12/12 interviewed families receiving services from DEAP indicated they were more satisfied with the services; 12/12 did have input into their child’s IFSP; and 12/12 did receive the services outlined in the IFSP. This is 48% of the statistically valid sample size of 20 records and this sample size will be increased in FFY 2015 for review. DEAP’s return rate is exceptional.

Indicator 5: Child Find (Birth to One)

Monitoring Priority: Effective General Supervision Part C / Child Find

Results indicator: Percent of infants and toddlers birth to 1 with IFSPs compared to national data. (20 U.S.C. 1416(a)(3)(B) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target ≤	1.39%	1.43%	1.43%	1.46%	1.46%	1.46%

Measurement:

Percent = [(# of infants and toddlers birth to 1 with IFSPs) divided by (the population of infants and toddlers birth to 1)] times 100 compared to national data.

FFY	Measurable and Rigorous Target
FFY 2014	Part C in Montana will serve 1.43% of all infants in the state.

DEAP met the FFY 2014 target. Actual Target Data for FFY 2014 (July 1, 2014 – June 30, 2015):

REPORT OF PROGRESS – INDICATOR 5			
	Measurable and Rigorous Target FFY 2014	Actual Target Data FFY 2013	Actual Target Data FFY 2014
Indicator 5: Percent of infants and toddlers with IFSPs birth to 1.	1.43%	3.78%	2.444%

DEAP – Part C Early Intervention Annual Performance Report

**FFY
2014**

DEAP’s Raw Data:

11 (infants and toddlers, birth to age one) with IFSPs divided by 450* (*2014 Census data population estimate of infants and toddlers, birth to age one in Carter, Custer, Dawson, Fallon, Garfield, Powder River, Prairie, Rosebud, Treasure, and Wibaux) times 100 = 2.444%.

Montana’s efforts to serve infants and toddlers, birth to one year of age, lags. Population estimates note a very gradual increase in this population group in Montana with some specific regions (demonstration sites for the upcoming SSIP) showing substantial growth in the under age four demographic group while overall Montana's median population continues to age.

Indicator 6: Child Find (Birth to Three)

Monitoring Priority: Effective General Supervision Part C / Child Find

Results indicator: Percent of infants and toddlers birth to 3 with IFSPs compared to national data. (20 U.S.C. 1416(a)(3)(B) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target ≤	2.14%	2.14%	2.20%	2.20%	2.20%	2.25%

Measurement:

Percent = [(# of infants and toddlers birth to 3 with IFSPs) divided by the (population of infants and toddlers birth to 3)] times 100 compared to national data.

FFY	Measurable and Rigorous Target
FFY 2014	Part C in Montana will serve 2.14% of all infants and toddlers in the state

DEAP met the FFY 2014 target. Actual Target Data for FFY 2014 (July 1, 2014 – June 30, 2015):

Indicator 7: 45-day timeline

Monitoring Priority: Effective General Supervision Part C / Child Find

Compliance indicator: Percent of eligible infants and toddlers with IFSPs for whom an initial evaluation and initial assessment and an initial IFSP meeting were conducted within Part C’s 45-day timeline. (20 U.S.C. 1416(a)(3)(B) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target	100%	100%	100%	100%	100%	100%

Measurement:

Percent = [(# of eligible infants and toddlers with IFSPs for whom an initial evaluation and initial assessment and an initial IFSP meeting were conducted within Part C’s 45-day timeline) divided by the (# of eligible infants and toddlers evaluated and assessed for whom an initial IFSP was required to be conducted)] times 100.

Account for untimely evaluations, assessments, and initial IFSP meetings, including the reasons for delays.

FFY	Measurable and Rigorous Target
FFY 2014	100% of all infants and toddlers eligible for Part C services will have completed evaluation(s) and assessment(s) and an initial IFSP meeting conducted within Part C’s 45-day timeline.

DEAP did not meet the compliance target. Actual Target Data for FFY 2014 (July 1, 2014 – June 30, 2015):

RAW DATA CALCULATION – INDICATOR 7				
A	B	C	D	E
Total child records reviewed	Children with timely evaluation and assessment and initial IFSP.	Children with evaluation and assessment and initial IFSP completed more than 45 days from the child’s referral, with documented exceptional family circumstances that caused the delay.	Percent of children with timely evaluation and assessment and initial IFSP or there is a documented exceptional family circumstance that caused the delay in the completion of the evaluation and assessment and initial IFSP.	Children whose evaluation and assessment and initial IFSP were held more than 45 days from the date of the referral for reasons other than documented exceptional family circumstances.
35	29	3*	91%	3
<p>*Exceptional family circumstances: 2/3 scheduling conflicts; 1/3 change in foster care provider. 2/35 delayed for reasons not documented and 1/35 was delayed due to new Family Support Specialist.</p> <p>Remediation Required: DEAP will continue to monitor IFSPs to determine any barriers to meeting the 45 day-timeline.</p>				

Raw Data from Montana’s Comprehensive Monitoring Tool:

22/25 files randomly selected using the *Research Randomizer Program* indicated infants and toddlers received timely evaluation and assessment and initial IFSP within 45 days and 1/25 files included a documented exceptional family circumstance that caused the delay, i.e. scheduling conflicts. 2/25 files reviewed exceeded the 45-day timeline for reasons not documented.

A proportional sample from each of the seven regional local provider agencies was required to complete a random sample of files using the *Research Randomizer Program* from all Part C eligible children with an IFSP and received services in FFY 2014. The files were reviewed for each child/family selected to determine if services were provided according to the definition of timely services, and recorded: (1) if the Part C IFSP was provided in a timely manner and if not, (2) the number of days over the child’s referral, (3) the reason the IFSP was not completed prior to the 45 day timeline.

Raw Data from Regional Part C agencies Sampling and Reporting for the APR information:

7/10 files reviewed indicated infants and toddlers received timely evaluation and assessment and initial IFSP within 45 days. 2/10 delayed due to exceptional family circumstances and 1/10 delayed due to new Family Support Specialist.

Indicator 8: Early Childhood Transition

Monitoring Priority: Effective General Supervision Part C / Child Find

Compliance indicator: The percentage of toddlers with disabilities exiting Part C with timely transition planning for whom the Lead Agency has:

- A. Developed an IFSP with transition steps and services at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddler’s third birthday;
- B. Notified (consistent with any opt-out policy adopted by the State) the SEA and the LEA where the toddler resides at least 90 days prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services; and
- C. Conducted the transition conference held with the approval of the family at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services.

(20 U.S.C. 1416(a)(3)(B) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target	100%	100%	100%	100%	100%	100%

Measurement:

- A. Percent = [(# of toddlers with disabilities exiting Part C who have an IFSP with transition steps and services at least 90 days, and at the discretion of all parties not more than nine months, prior to their third birthday) divided by the (# of toddlers with disabilities exiting Part C)] times 100.
- B. Percent = [(# of toddlers with disabilities exiting Part C where notification (consistent with any opt-out policy adopted by the State) to the SEA and LEA occurred at least 90 days prior to their third birthday for toddlers potentially eligible for Part B preschool services) divided by the (# of toddlers with disabilities exiting Part C who were potentially eligible for Part B)] times 100.
- C. Percent = [(# of toddlers with disabilities exiting Part C where the transition conference occurred at least 90 days, and at the discretion of all parties not more than nine months prior to the toddler’s third birthday for toddlers potentially eligible for Part B) divided by the (# of toddlers with disabilities exiting Part C who were potentially eligible for Part B)] times 100.

Account for untimely transition planning under 8A, 8B, and 8C, including the reasons for delays.

Total child records reviewed.	Children for whom the family did not provide approval to conduct the transition conference due to exceptional family circumstances.	Total child records reviewed less the children for whom the family did not provide approval to conduct the transition and the transition conference was not held due to exceptional family circumstances.	Children with timely transition conference, at least 90 days and not more than nine months prior to the child's third birthday	Percent of children with timely transition conference, at least 90 days and not more than nine months prior to the child's third birthday, if child potentially eligible for Part B.
11	3*	8	8	100%

***Exceptional family circumstances:** Two families declined and one family refused to have transition meeting but later accepted services.

State-wide Remediation Required:

Montana's Part C Program, Montana Milestones, in partnership with the Office of Public Instruction will provide specific Part C to Part B transition professional development to every regional provider. The subject matter will address the different transition settings; specific timelines required; roles of all

individuals included in the transition process; and specific content required to be shared during the transition process.

Indicator 10: Mediation

Monitoring Priority: Effective General Supervision Part C / General Supervision

Results indicator: Percent of mediations held that resulted in mediation agreements. (20 U.S.C. 1416(a)(3)(B) and 1442)

DEAP did not have any complaints resolved through mediation in FFY 2014.
