

Montana Milestones/Part C Early Intervention Program

Recognition of Exemplary Practices

Date: 11-18-15

The State of Montana Developmental Disabilities Program would like to recognize ECI for exemplary practices observed in carrying out the mission of the Montana Milestones/Part C Early Intervention Program.

Exemplary Practices Observed:

First and foremost, I would like to recognize all staff for being friendly and professional during this long process.

When asked for information, it was given to me in a timely manner, and I had very few questions on where to get information once I received the information. The files all had paperwork in the same fashion, so it made it easier to find.

The forms that are being used when presented to the family are clear and precise, as well as the consent forms. The other forms ECI is using for eligibility, listing assessments, primary language, multidisciplinary team, were easy to read and could get a lot of information without having to look deeper.

There were multiple plans where the outcomes were so well written they should be used as examples for further training. Example, Child will participate in dressing time and potty time by pulling pants up and down.

Overall, ECI is doing great!!

Montana Milestones/Part C Early Intervention Program

Recognition of Exemplary Practices

The State of Montana Developmental Disabilities Program would like to extend thanks and appreciation to [ECI](#) for helping establish and maintain best practices in the field of Early Intervention in the State of Montana. Thanks for all the hard work and dedication.
