## Methods Used in Collection of Data:

Data is based on two methods of data collection with each Part C provider agency. The two different data collection methods and schedules cover the delivery of services throughout FFY 2014 including both children with their initial IFSP as well as children with subsequent IFSPs.

**Method 1:** A survey method, following specific State Part C protocol, was used to collect data from the Part C provider agency from children’s files for the Federal Fiscal Year of July 1, 2014 through June 30, 2015 and submitted to Montana’s Part C Coordinator. The agency randomly selected a specified number of files based on the number of infants and toddlers served throughout the year. The collection provides the State a proportional representation by geographical region of the whole population served in Montana’s Part C. After the selection of random files, data was reviewed to document compliance to timely provision of services for each file.

**Method 2:** The second method was annual on-site and EI Module monitoring by Montana’s Part C Quality Improvement Specialist (QIS) using Montana’s newly created Comprehensive Monitoring Tool for Part C Early Intervention for FFY 2014. The QIS individually performed a review using Montana’s

# Family Outreach – Part C Early Intervention Annual Performance Report

**FFY  
2014**

Early Intervention Module (Montana’s electronic system for data collection from IFSPs and Child Outcome Summaries) and scheduled on-site monitoring.

**Data from Regional Part C agencies Sampling and Reporting for the APR Information:**

25/25 children’s files randomly selected using the *Research Randomizer Program* indicated infants and toddlers received Part C early intervention services within 30 days of parent(s) signing IFSP.

The definition and procedures/instructions ensure uniform implementation of data collection protocol. Each of the seven Part C provider agencies reported data to the Part C Coordinator who reviewed data for compliance and compiled the data for the APR. Each of the seven regional Part C provider agencies maintains a record for **Indicator 1** to include the identification of the children/families randomly selected so that the Quality Improvement Specialist may verify the accuracy (reliability and validity) of the data submitted. This will be completed during the following monitoring cycle.

**Data from Montana’s Comprehensive Monitoring Tool:**

107/111 files reviewed indicated infants and toddlers received Part C early intervention services within 30 days of parent(s) signing the IFSP. 12/111 delayed due to exceptional family circumstances. 2/111 delayed due to Family Support Specialists situations.

## Indicator 2: Services in Natural Environments

*Monitoring Priority: Early Intervention Services In Natural Environments*

**Results indicator: Percent of infants and toddlers with IFSPs who primarily receive early intervention services in the home or community-based settings. (20 U.S.C. 1416(a)(3)(A) and 1442)**

Target C1 ≥	67%	73%	73%	74%	74%	75%
Target C2 ≥	52%	64%	64%	65%	65%	66%

## Measurement:

### A. Positive social-emotional skills (including social relationships):

- a. Percent of infants and toddlers who did not improve functioning =  $[(\# \text{ of infants and toddlers who did not improve functioning}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- b. Percent of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers =  $[(\# \text{ of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- c. Percent of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it =  $[(\# \text{ of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- d. Percent of infants and toddlers who improved functioning to reach a level comparable to same-aged peers =  $[(\# \text{ of infants and toddlers who improved functioning to reach a level comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- e. Percent of infants and toddlers who maintained functioning at a level comparable to same-aged peers =  $[(\# \text{ of infants and toddlers who maintained functioning at a level comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .

If a + b + c + d + e does not sum to 100%, explain the difference.

### B. Acquisition and use of knowledge and skills (including early language/communication):

- a. Percent of infants and toddlers who did not improve functioning =  $[(\# \text{ of infants and toddlers who did not improve functioning}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- b. Percent of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers =  $[(\# \text{ of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .

- c. Percent of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it =  $[(\# \text{ of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- d. Percent of infants and toddlers who improved functioning to reach a level comparable to same-aged peers =  $[(\# \text{ of infants and toddlers who improved functioning to reach a level comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- e. Percent of infants and toddlers who maintained functioning at a level comparable to same-aged peers =  $[(\# \text{ of infants and toddlers who maintained functioning at a level comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .

If a + b + c + d + e does not sum to 100%, explain the difference.

C. Use of appropriate behaviors to meet their needs:

- a. Percent of infants and toddlers who did not improve functioning =  $[(\# \text{ of infants and toddlers who did not improve functioning}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- b. Percent of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers =  $[(\# \text{ of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- c. Percent of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it =  $[(\# \text{ of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- d. Percent of infants and toddlers who improved functioning to reach a level comparable to same-aged peers =  $[(\# \text{ of infants and toddlers who improved functioning to reach a level comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .
- e. Percent of infants and toddlers who maintained functioning at a level comparable to same-aged peers =  $[(\# \text{ of infants and toddlers who maintained functioning at a level comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$ .

**Summary Statements for Each of the Three Outcomes:**

**Summary Statement 1:** Of those infants and toddlers who entered or exited early intervention below age expectations in each Outcome, the percent who substantially increased their rate of growth by the time they turned 3 years of age or exited the program.

**Measurement for Summary Statement 1:** Percent =  $(\# \text{ of infants and toddlers reported in progress category (c) plus } \# \text{ of infants and toddlers reported in category (d)}) \div (\# \text{ of infants and toddlers})$

reported in progress category (a) plus # of infants and toddlers reported in progress category (b) plus # of infants and toddlers reported in progress category (c) plus # of infants and toddlers reported in progress category (d)] times 100.

**Summary Statement 2:** The percent of infants and toddlers who were functioning within age expectations in each Outcome by the time they turned 3 years of age or exited the program.

**Measurement for Summary Statement 2:** Percent = # of infants and toddlers reported in progress category (d) plus [# of infants and toddlers reported in progress category (e) divided by the total # of infants and toddlers reported in progress categories (a) + (b) + (c) + (d) + (e)] times 100.

## Ongoing State-wide Remediation Required:

As expected, based upon Montana’s analysis for the SSIP, Phase I, outcomes data collected for FFY 2014 showed variances in outcomes measurements among all early intervention providers with ratings previously identified as possibly inflated beginning to decline. Continued analysis and monitoring by the Part C Coordinator and individual providers is required as the Part C office continues to analyze data recorded for validity and reliability. Ongoing quarterly calls combine instruction, reflection, and planning to enhance understanding of outcomes measurements and move toward quality ratings. Each provider is responsible for “drilling” further into Child Outcomes data quarterly.

Montana is participating in the Child Outcomes Cohort. Beginning July 2016, all early intervention program providers will receive intensive professional development about the Child Outcomes Summary Process. This will include recommended practices of measuring Child Outcomes based upon Montana’s Outcomes guidance and the ECTA Center’s individualized modules for the Child Outcomes Summary Process. The intensive three-day train the trainer event was held in April 2016 to prepare individual early intervention program providers’ chosen trainers as they plan the implementation and evaluation of the systemic Child Outcomes Summary Process training at each agency. This concentrated professional development, with the support of OSEP Technical Assistance Centers, will advise Early Intervention program providers’ leadership and Family Support Specialists about the Decision Tree, the integration and interconnectedness of the IFSP outcomes and the three global Child Outcomes as well as engage families within the Child Outcomes Summary Process.

As Montana moves through the SSIP with a dedicated improvement strategy for the Child Outcomes Summary Process and continues to focus upon data collection, analysis, and decision-making based upon analysis, Montana will move closer to valid, reliable data to adjust our Child Outcomes targets.

## Indicator 4: Family Involvement

*Monitoring Priority: Early Intervention Services In Natural Environments*

**Results indicator:** Percent of families participating in Part C who report that early intervention services have helped the family:

- A. Know their rights;
- B. Effectively communicate their children's needs; and
- C. Help their children develop and learn.

(20 U.S.C. 1416(a)(3)(A) and 1442)

### FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target A ≥	93%	93%	94%	94%	95%	95%
Target B ≥	93%	93%	94%	94%	95%	95%
Target C ≥	88%	93%	94%	94%	95%	95%

The State implemented a different interviewing structure in FFY 2014 for Quality Improvement Specialists to conduct with families as well as the requirement that all families are provided opportunities to view Montana's Part C Early Intervention Procedural Safeguards video when they initially enter supports and services and then again annually. The use of the Family Survey created by the Office of Special Education Programs, Early Childhood Technical Assistance Center, will be implemented in FFY 2015.

#### Measurement:

- A. Percent = [(# of respondent families participating in Part C who report that early intervention services have helped the family know their rights) divided by the (# of respondent families participating in Part C)] times 100.
- B. Percent = [(# of respondent families participating in Part C who report that early intervention services have helped the family effectively communicate their children's needs) divided by the (# of respondent families participating in Part C)] times 100.
- C. Percent = [(# of respondent families participating in Part C who report that early intervention services have helped the family help their children develop and learn) divided by the (# of

### Data from Montana’s Comprehensive Monitoring Tool:

As part of Montana’s general supervision monitoring, the Quality Improvement Specialist (QIS) reviewed 9 randomly selected files of children and families receiving Part C services from your agency and interviewed that sample of families who received Part C services to determine the impact of their satisfaction with Part C services. During the past year, 9/9 interviewed families receiving services from Family Outreach indicated they were more satisfied with the services; 9/9 did have input into their child’s IFSP; and 9/9 did receive the services outlined in the IFSP. This is 9% of the statistically valid sample size of 111 records and this sample size will be increased in FFY 2015 for review.

Family Outreach’s response rate is excellent.

### Indicator 5: Child Find (Birth to One)

*Monitoring Priority: Effective General Supervision Part C / Child Find*

**Results indicator: Percent of infants and toddlers birth to 1 with IFSPs compared to national data. (20 U.S.C. 1416(a)(3)(B) and 1442)**

#### FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target ≤	1.39%	1.43%	1.43%	1.46%	1.46%	1.46%

Measurement:

**Percent = [(# of infants and toddlers birth to 1 with IFSPs) divided by (the population of infants and toddlers birth to 1)] times 100 compared to national data.**

# Family Outreach – Part C Early Intervention Annual Performance Report

**FFY  
2014**

<b>FFY</b>	<b>Measurable and Rigorous Target</b>
<b>FFY 2014</b>	Part C in Montana will serve <b>1.43%</b> of all infants in the state.

**Family Outreach met the FFY 2014 target. Actual Target Data for FFY 2014 (July 1, 2014 – June 30, 2015):**

<b>REPORT OF PROGRESS – INDICATOR 5</b>			
	<b>Measurable and Rigorous Target FFY 2014</b>	<b>Actual Target Data FFY 2013</b>	<b>Actual Target Data FFY 2014</b>
<b>Indicator 5:</b> Percent of infants and toddlers with IFSPs birth to 1.	<b>1.43%</b>	<b>1.83%</b>	<b>1.87%</b>

### **Family Outreach’s Raw Data:**

**46** (infants and toddlers, birth to age one) with IFSPs divided by 2456\* (\*2014 Census data population estimate of infants and toddlers, birth to age one in Beaverhead, Broadwater, Deer Lodge, Gallatin, Granite, Jefferson, Lewis and Clark, Madison, Meagher, Park, Powell, Silver Bow counties) times 100 = 1.87%.

Montana’s efforts to serve infants and toddlers, birth to one year of age, lags. Population estimates note a very gradual increase in this population group in Montana with some specific regions (pilots for the SSIP) showing substantial growth in the under age four demographic group while overall Montana’s median population continues to age. Family Outreach’s robust referral system is noted as a contributing factor to increasing numbers of infants served.

## **Indicator 6: Child Find (Birth to Three)**

*Monitoring Priority: Effective General Supervision Part C / Child Find*

**Results indicator: Percent of infants and toddlers birth to 3 with IFSPs compared to national data. (20 U.S.C. 1416(a)(3)(B) and 1442)**

<p>*12/136 files reviewed delayed due to <b>exceptional family circumstances</b>.                  2/136 delayed due to FSS illness and 1 FSS change.  <b>Remediation Required:</b>                  Family Outreach will continue to monitor ensuring compliance with 45-day timelines.                  The Quality Improvement Specialist will continue to monitor IFSPs for this indicator.</p>				

**Raw Data from Family Outreach’s random sample:**

25/25 files randomly selected using the *Research Randomizer Program* indicated infants and toddlers received timely evaluation and assessment and initial IFSP within 45 days. A proportional sample from each of the seven regional local provider agencies was required to complete a random sample of files using the *Research Randomizer Program* from all Part C eligible children with an IFSP and received services in FFY 2014. The files were reviewed for each child/family selected to determine if services were provided according to the definition of timely services, and recorded: (1) if the Part C IFSP was provided in a timely manner and if not, (2) the number of days over the child’s referral, (3) the reason the IFSP was not completed prior to the 45 day timeline.

**Raw Data from Montana’s Comprehensive Monitoring Tool:**

97/111 files randomly selected using the *Research Randomizer Program* indicated infants and toddlers received timely evaluation and assessment and initial IFSP within 45 days.

## Indicator 8: Early Childhood Transition

*Monitoring Priority: Effective General Supervision Part C / Child Find*

**Compliance indicator:** The percentage of toddlers with disabilities exiting Part C with timely transition planning for whom the Lead Agency has:

- A. Developed an IFSP with transition steps and services at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddler’s third birthday;
- B. Notified (consistent with any opt-out policy adopted by the State) the SEA and the LEA where the toddler resides at least 90 days prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services; and
- C. Conducted the transition conference held with the approval of the family at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services.

(20 U.S.C. 1416(a)(3)(B) and 1442)

**State-wide Remediation Required:**

Montana's Part C Program, Montana Milestones, in partnership with the Office of Public Instruction will provide specific Part C to Part B transition professional development to every regional provider. The subject matter will address the different transition settings; specific timelines required; roles of all individuals included in the transition process; and specific content required to be shared during the transition process.

**Indicator 10: Mediation**

*Monitoring Priority: Effective General Supervision Part C / General Supervision*

**Results indicator: Percent of mediations held that resulted in mediation agreements. (20 U.S.C. 1416(a)(3)(B) and 1442)**

**Family Outreach did not have any complaints resolved through mediation in FFY 2014.**
