

Montana Milestones/Part C Early Intervention Program

## Recognition of Exemplary Practices

Date: Pending

The State of Montana Developmental Disabilities Program would like to recognize Family Outreach for exemplary practices observed in carrying out the mission of the Montana Milestones/Part C Early Intervention Program.

**Exemplary Practices Observed:** During the FY15 review of the Part C program it was observed that FSSs employed by Family Outreach work with families to have initial, annual and 6 month meetings at the family's convenience, while working to ensure the meetings are held within the required timelines. Most of the meetings were held within the required timeline, but not entered into the system in time. Family Outreach takes the time to work with families and meet at a time that works with their busy lives.

The State of Montana Developmental Disabilities Program would like to extend thanks and appreciation to Family Outreach for helping establish and maintain best practices in the field of Early Intervention in the State of Montana. Thanks for all the hard work and dedication.
