

Montana Milestones/Part C Early Intervention Program

Recognition of Exemplary Practices

Date: 11/10/2015

The State of Montana Developmental Disabilities Program would like to recognize Quality Life Concepts for exemplary practices observed in carrying out the mission of the Montana Milestones/Part C Early Intervention Program.

Exemplary Practices Observed:

The file reviews indicated that in most situations, families were getting more services than were outlined in the IFSP. Case Management in particular was consistently provided at or in exceedance of the plan. It is noted often case management work in particular is going on without the family knowing how much time or effort is being spent on their behalf for coordination, transition, referral and related activities as it often goes on behind the scenes— with the family only seeing the outcome, and not the effort.

The State of Montana Developmental Disabilities Program would like to extend thanks and appreciation to Quality Life Concepts for helping establish and maintain best practices in the field of Early Intervention in the State of Montana. Thanks for all the hard work and dedication.

Lori Wertz
