171	170	1	100%	0
<ul style="list-style-type: none"> 25/25 files reviewed by the provider agency noted infants and toddlers with IFSPs receive the early intervention services in a timely manner (30 days). 140/146 files reviewed by the Quality Improvement Specialist (QIS) noted Support and Service 				

contacts correlate with frequency and intensity of services indicated in the IFSP; 1/146 records note support and service was not provided according to the IFSP due to exceptional family circumstances; 143/146 records note support and service summaries reflect activities related to IFSP outcomes and strategies; and that every effort is made to reschedule missed home visits or the IFSP is updated to reflect changes in the frequency/intensity of services.

Methods Used in Collection of Data:

Data is based on two methods of data collection with each Part C provider agency. The two different data collection methods and schedules cover the delivery of services throughout FFY 2015 including both children with their initial IFSP as well as children with subsequent IFSPs.

Method 1: A survey method, following specific State Part C protocol, was used to collect data from the Part C provider agency from children's files for the Federal Fiscal Year of July 1, 2015 through June 30, 2016 and submitted to Montana's Part C Coordinator. The agency randomly selected a specified number of files based on the number of infants and toddlers served throughout the year. The collection provides the State a proportional representation by geographical region of the whole population served in Montana's Part C. After the selection of random files, data was reviewed to document compliance to timely provision of services for each file.

Method 2: The second method was annual on-site and the State's data management system by Montana's Part C Quality Improvement Specialist (QIS) using Montana's Comprehensive Monitoring Tool for Part C Early Intervention for FFY 2015. The QIS individually performed a review using Montana's Early Intervention Module (Montana's electronic system for data collection from IFSPs and Child Outcome Summaries) and scheduled on-site monitoring.

Data from Regional Part C agencies Sampling and Reporting for the APR Information:

25/25 children's files randomly selected using the *Research Randomizer Program* indicated infants and toddlers received Part C early intervention services within 30 days of parent(s) signing IFSP.

The definition and procedures/instructions ensure uniform implementation of data collection protocol. Each of the seven Part C provider agencies reported data to the Part C Coordinator who reviewed data for compliance and compiled the data for the APR. Each of the seven regional Part C provider agencies maintains a record for **Indicator 1** to include the identification of the children/families randomly selected so that the Quality Improvement Specialist may verify the accuracy (reliability and validity) of the data submitted. This will be completed during the following monitoring cycle.

Data from Montana's Comprehensive Monitoring Tool:

Of the 146 files reviewed by the Quality Improvement Specialist (QIS) noted 140/146 files reviewed for Support and Service contacts correlate with frequency and intensity of services indicated in the IFSP; 1/146 records note support and service was not provided according to the IFSP due to exceptional family circumstances; 143/146 files reviewed for support and service summaries reflect activities related to IFSP outcomes and strategies; and 146/146 files reviewed that every effort is made to reschedule missed home visits or the IFSP is updated to reflect changes in the frequency/intensity of services.

Ongoing State-wide Remediation Required:

Concentrated Child Outcomes Summary ratings professional development, with the support of OSEP Technical Assistance Centers, is ongoing at each early intervention provider agency with expected completion July 1, 2017. Family Outreach identified four staff members to participate in Montana’s Train the Trainer for the Child Outcomes Summary Process: Teri Lilletvedt, Jill Ballantyne, Jenna Snow, and Jennifer Morrison. They, in turn, provided systemic training to the agency’s Family Support Specialists and Quality Improvement Specialists within the timelines provided by the State.

After collecting additional data in FFY 2017, the State will be able to make informed decisions about potentially adjusting targets in each of the three outcomes.

New Remediation required:

1. **State-wide Remediation Required:** Targeted support from the Office of Special Education Programs (OSEP) to improve performance outcomes for infants and toddlers in the three global outcomes.
2. **The State of Montana will receive targeted assistance to improve the percentage of children exiting Part C that are included in outcome data (≥ 25%).**
 - Family Outreach exit data recorded and reported to OSEP for FFY 2015: 188. The number of Family Outreach child records with an exit Child Outcome Summary: 119. Percentage of children exiting Family Outreach who are included in Montana outcome data: **63%** which indicates Family Outreach has a notable **practice** for recording Child Outcomes ratings at entry and exit. The State’s percentage: **51%**.

Indicator 4: Family Involvement

Monitoring Priority: Early Intervention Services In Natural Environments

Results indicator: Percent of families participating in Part C who report that early intervention services have helped the family:

- A. Know their rights;
- B. Effectively communicate their children's needs; and
- C. Help their children develop and learn.

(20 U.S.C. 1416(a)(3)(A) and 1442)

Data from Montana’s Comprehensive Monitoring Tool:

Family Outreach – Part C Early Intervention Annual Performance Report

**FFY
2015**

As part of Montana’s general supervision monitoring, the Quality Improvement Specialist (QIS) reviewed 6 randomly selected files of children and families receiving Part C services from your agency and interviewed that sample of families who received Part C services to determine the impact of their satisfaction with Part C services. During the past year, 6/6 families interviewed indicated they were between 85% to 100% satisfied with the services; 6/6 reported they understanding their rights; 6/6 reported they can communicate their child’s needs; and 6/6 reported that early intervention helped them help their child learn and develop.

- The sample size for monitoring in FFY 2016 will increase.

Exemplary: Family Outreach’s Family Survey response rate continues to be excellent. Family Outreach indicates using the Family Survey results in the following ways to enhance program planning:

- To evaluate services being provided;
- To identify areas of strengths and needs related to parental rights, effective communication for child’s needs, and child development;
- To identify training needs; and
- To determine if grievance/appeal process is followed.

Indicator 5: Child Find (Birth to One)

Monitoring Priority: Effective General Supervision Part C / Child Find

Results indicator: Percent of infants and toddlers birth to 1 with IFSPs compared to national data. (20 U.S.C. 1416(a)(3)(B) and 1442)

FFY 2013 – FFY 2018 Targets

<p>Family Outreach monitoring:</p> <ul style="list-style-type: none"> ✓ 2/25 delayed due to exceptional family circumstances. <p>QIS monitoring:</p> <ul style="list-style-type: none"> ✓ 14/102 delayed due to exceptional family circumstances including scheduling difficulties. ✓ 2/102 completed and submitted to the data management system after the 45th day. ✓ 1/102 delayed due to assignment of FSS. ✓ 4/102 delayed due to “late intake.” ✓ 10/102 delayed due to unidentified reasons per the Quality Improvement Specialists performing monitoring. <p>FFY 2015 data per the data management system:</p> <ul style="list-style-type: none"> ✓ 484 initial IFSPs completed. ✓ 332/484 completed within 45 day timeline (69%) ✓ 152/484 total overdue (31%) <ul style="list-style-type: none"> ➤ 55/484 delayed due to exceptional family circumstances (11%) ➤ 12/484 delayed due to agency circumstances (late intake, FSS changes) (2%) ➤ 85/484 completed and submitted to the data management system after the 45th day (18%) 				

Raw Data from Family Outreach’s random sample:

23/25 files randomly selected using the *Research Randomizer Program* indicated infants and toddlers received timely evaluation and assessment and initial IFSP within 45 days. 2/25 evaluation, assessment, and the initial IFSP were delayed due to exceptional family circumstances.

A proportional sample from each of the seven regional local provider agencies was required to complete a random sample of files using the *Research Randomizer Program* from all Part C eligible children with an IFSP and received services in FFY 2015. The files were reviewed for each child/family selected to determine if services were provided according to the definition of timely services, and recorded: (1) if the Part C IFSP was provided in a timely manner and if not, (2) the number of days over the child’s referral, (3) the reason the IFSP was not completed prior to the 45 day timeline.

Raw Data from Montana’s Comprehensive Monitoring Tool:

71/102 files randomly selected using the *Research Randomizer Program* indicated infants and toddlers received timely evaluation, assessment, and initial IFSP within 45 days. 14/102 delayed due to exceptional family circumstances including scheduling difficulties.

Remediation:

Family Outreach will monitor IFSPs to identify and eliminate barriers to meeting the 45 day-timeline.

Indicator 8: Early Childhood Transition

Monitoring Priority: Effective General Supervision Part C / Child Find

Compliance indicator: The percentage of toddlers with disabilities exiting Part C with timely transition planning for whom the Lead Agency has:

- A. Developed an IFSP with transition steps and services at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddler’s third birthday;
- B. Notified (consistent with any opt-out policy adopted by the State) the SEA and the LEA where the toddler resides at least 90 days prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services; and
- C. Conducted the transition conference held with the approval of the family at least 90 days, and at the discretion of all parties, not more than nine months, and prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services.

(20 U.S.C. 1416(a)(3)(B) and 1442)
