

Montana Milestones/Part C Early Intervention Program
Recognition of Exemplary Practices

Date: 11/10/2015

The State of Montana Developmental Disabilities Program would like to recognize Quality Life Concepts for exemplary practices observed in carrying out the mission of the Montana Milestones/Part C Early Intervention Program.

Exemplary Practices Observed:

It was very clear in speaking with families that Quality Life Concepts staff are skilled in listening to and addressing family needs. Families generally felt that they were an integral part of the planning process, were able to direct the types of services their child would need, and that their Family Support Specialist often came up with ideas for training and support that families did not identify as needs until they had the support---at which time they realized just how important that service was.

The State of Montana Developmental Disabilities Program would like to extend thanks and appreciation to Quality Life Concepts for helping establish and maintain best practices in the field of Early Intervention in the State of Montana. Thanks for all the hard work and dedication.

Lori Wertz

Quality Improvement Specialist

State of Montana, DDP
