

Medicaid and Public Health

Agenda

- **Liaison Role**
- **Diabetes Programs**
- **Adult Quality Grant**
- **Health Improvement Program**
- **Medicaid Asthma**
- **Medicaid Expansion**
- **Eligibility**
- **Premiums & Copayments**
- **Benefit Plan**
- **Health Risk Assessment**
- **Going Forward**
- **Contacts**

Liaison Role

- Ensure coordination between the Public Health and Safety Division (PHSD) and Health Resources Division (HRD) through:
 - Program collaboration;
 - Referral to community-based public health services;
 - Improvement of services; and
 - Implementation of new reforms.

Diabetes Programs

- Diabetes Prevention Program (DPP)
 - For Medicaid members at-risk for developing type 2 diabetes or cardiovascular disease.
 - Will receive a lifestyle intervention provided at one of the contracted sites.
 - Intervention sites are reimbursed for providing the service to Medicaid enrolled members.
- Diabetes Self Management Education (DSME)
 - Covered Medicaid benefit.

Adult Quality Grant

- **Montana Asthma Control Program**
 - Mailing outreach to Medicaid members at risk for asthma.
 - To assist primary care providers in identifying Medicaid members in need of support for managing their asthma.
- **Montana Diabetes Project**
 - Mailing outreach to Medicaid members at high risk for diabetes or pre-diabetes.
 - Mini grant provided to address diabetes care at the Bullhook Community Center in Havre, MT and to improve adherence to evidence based medicine in making decisions about the care of individual members with diabetes.
- **Montana Cardiovascular Health Program**
 - Mailing outreach to Medicaid members not seen by a provider.
 - To encourage members to have blood pressure checked at a provider's office.

Healthy People. Healthy Communities.

Department of Public Health & Human Services

Adult Quality Grant cont.

- **Montana Cancer Control Program**
 - Conducted a baseline and ongoing quarterly data analysis to identify Medicaid members with a gap in care for breast, cervical, and colorectal cancers.
 - To provide education to encourage women to be screened for breast cancer.
- **The Montana Tobacco Use Prevention Program**
 - Supplying a frequency distribution for all tobacco cessation codes that helped find providers not using the codes.
 - To revise cessation policy as it relates to billing codes.
- **Medicaid Chronic Disease and Health**
 - Telephone based questionnaire to be completed by a random sample of adult Medicaid members.
 - To collect information about access to health care, health behaviors, and environmental factors related to health.

Healthy People. Healthy Communities.

Department of Public Health & Human Services

Health Improvement Program (HIP)

- Medicaid's Enhanced Primary Care Case Management
 - 14 community health centers around the state.
 - Combines disease management services with a holistic approach to health and well-being for high risk and high cost members.
 - Prevention efforts for members at risk of developing chronic health conditions.
 - Helps members in health crisis to improve their life and well-being and better manage their disease.

HIP and Public Health

- HIP care managers refer members to Community Based Programs throughout the state.
- The program collaborates with Chronic Disease Prevention Bureau to utilize and be knowledgeable of programs in health centers.
- HIP care managers received Montana Asthma Control Program training from an asthma educator.
- HIP care managers worked with community health centers in Yellowstone County, MT, to increase adherence to antipsychotics for individuals with schizophrenia.

Asthma Medicaid Covered Codes

Code	Description
Preventive Medicine Counseling and/or Risk Factor Reduction Intervention(s) Provided to an Individual	
99401	15 minute asthma education session (subsequent follow up visits for asthma)
99402	30 minute asthma education session (initial clinic visit)
99403	Approximately 45 minutes
99404	Approximately 60 minutes
Preventive Medicine Counseling and/or Risk Factor Reduction Intervention(s) Provided to Individuals in a Group Setting	
99411	Approximately 30 minutes
99412	Approximately 60 minutes
Preventive Care: Health Risk Assessment	
99420	Administer and score an asthma control screening questionnaire, such as ACT, C-ACT, ATAQ, or ACQ
Tobacco Cessation	
G0436	Smoking and tobacco cessation counseling visit for the asymptomatic patient; intermediate, greater than 3 minutes, up to 10 minutes
G0437	Smoking and tobacco cessation counseling visit for the asymptomatic patient; intermediate, greater than 10 minutes
99406	Smoking and tobacco use cessation counseling visit; intermediate, greater than 3 minutes, up to 10 minutes
99407	Smoking and tobacco use cessation counseling visit; intensive, greater than 10 minutes
Spirometry	
94010	Spirometry, including graphic record, total and time vital capacity, expiratory flow rate measurement, with or without maximal voluntary ventilation, or commonly known as breathing capacity test.
94620	Pulmonary stress test (simple)
94621	Pulmonary stress test (complex)
Inhaler technique	
94640	Breathing treatment
94664	Demonstration/evaluation of patient utilization of device

Medicaid Expansion

- Montana Health and Economic Livelihood Partnership (HELP) Act
- Established the Montana HELP Program to expand health coverage in Montana to an estimated 70,000 new adults.
 - Coverage will be done through a contract with a third party administrator (TPA).
 - Program participants will pay an annual premium, billed monthly, equal to 2% of the participant's income.
 - Participants are encouraged to participate in the workforce development program through the Department of Labor.

Eligible for Expansion

State Plan Medicaid:

- Native Americans;
- Individuals determined to have exceptional health care needs as defined by federal law; and
- Individuals who are terminally ill and receiving hospice care.

May be in State Plan Medicaid:

- Individuals who live in a geographical area with insufficient health care providers; and
- Individuals in need of continuity of care that would not be available or cost-effective.

Premiums

- HELP Program waiver participants pay an annual premium, billed monthly, equal to 2% of the participant's income.
- Premiums will be collected by the TPA.

Copayments

- Copayments may not exceed the maximum allowable amount under federal law.
- Total premium and copayments cannot exceed 5% of the participant's income.
- Montana's existing Medicaid and Healthy MT Kids Programs already have copayments.

HELP Benefit Plan

- Includes
 - 10 Essential Health Benefits required in private plans
 - Benefits outlined in Benchmark Plan
 - Additional Program Benefits
 - Dental Preventative Services
 - Limited Dental Treatments
 - Eye Glasses
 - Audiology
 - Hearing Aids
 - Eyeglasses
 - Transportation

Health Risk Assessment (HRA)

- Required function of the TPA to assess the health status of HELP program participants
- Tool will be used to target outreach and intervention
- Collaboration between Medicaid and public health
- Examples:
 - Healthy Behaviors;
 - Mental Illness/Substance Use Disorder;
 - Tobacco Use; and
 - Obesity.
