Animals can carry bacteria that could make people sick.

## What can you do prevent illness?

Avoid touching your mouth after animal contact

Keep boots used for animal chores outside of house.

Supervise small children around animals.

Wash hands after contact to animals!

Don't bring livestock or poultry in the house.

Don't eat or drink around animals

Leave pacifiers and strollers outside of animal areas.

Stay home when you are sick.

Leave sick animals at home.
