

## HIV/AIDS Materials Review Checklist

Thank you for participating as a member of the HIV/AIDS Review Panel. The Centers for Disease Control and Prevention (CDC) requires that all materials purchased with CDC funds be approved by members of a state review panel. The following guidelines should be used when reviewing materials submitted by the applicant.

*Thank you for your assistance!*

- The message presented by the material is clearly understood.
- Materials use language that is appropriate for the target audience.
- Materials use current and correct terminology.
- Materials do not discriminate based upon sexual orientation, race, gender or ethnicity.
- Text and drawings are medically accurate.
- The format and graphics are visually appealing.
- Risk-reducing messages that promote a healthy lifestyle are provided.
