

Three ways to stop the spread of HIV

1. I know, you've heard it before, but it works—**use a condom.**
2. **Take PrEP.** Used correctly it will stop transmission. Seriously, look into it. More than 90% effective in stopping HIV.
3. **Don't have sex.** Yeah, I said it. It's the only 100% for sure way to avoid *HIV and STDs.*
