

AN ACT GENERALLY REVISING LAWS RELATED TO FERTILITY PRESERVATION SERVICES FOR PEOPLE DIAGNOSED WITH CANCER; REQUIRING INSURANCE COVERAGE OF FERTILITY PRESERVATION SERVICES; CREATING A VOLUNTARY ASSESSMENT FOR CANCER SCREENING EFFORTS; CREATING A SPECIAL REVENUE ACCOUNT; PROVIDING DEFINITIONS; AMENDING SECTIONS 2-18-704, 33-31-111, 33-35-306, 53-6-101, AND 61-3-303, MCA; AND PROVIDING EFFECTIVE DATES, AND AN APPLICABILITY DATE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

**Section 1. Legislative findings -- purpose.** (1) The legislature finds that young Montanans who are diagnosed with cancer often learn, shortly before they are to begin the medical treatment needed to save their lives, that the treatment may result in infertility, leaving them only a small window of time in which to decide whether to undergo medically necessary efforts to preserve their ability to have biological families.

(2) The legislature further finds that future fertility is a top quality of life priority for many young cancer patients and that the possibility of infertility may cause significant distress and grief during a time when cancer patients are also facing not only their diagnoses but also the prospects of treatment that may include surgery, chemotherapy, radiation, or a combination of those approaches.

(3) The legislature further finds that fertility preservation is medically necessary and considered part of the standard of care for age-eligible oncology patients.

(4) It is the intent of [sections 1 through 4] to ensure that fertility preservation services for cancer patients are covered by insurance plans in the same manner as other medically necessary care and that cancer patients are made aware of the options for fertility preservation services.

**Section 2. Definitions.** As used in [sections 1 through 4], the following definitions apply:

(1) "Iatrogenic infertility" means an impairment of fertility caused directly or indirectly by surgery, chemotherapy, radiation, or other medical treatment.

(2) "Medical treatment that may directly or indirectly cause iatrogenic infertility" means treatment with a potential side effect of impaired fertility, as established by a national association for practitioners of reproductive medicine or clinical oncology.

(3) "Standard fertility preservation services" means procedures consistent with established medical practices and professional guidelines published by a national association for practitioners of reproductive medicine or clinical oncology.

**Section 3. Coverage of fertility preservation services.** (1) Each individual and group disability policy, certificate of insurance, and membership contract that is delivered, issued for delivery, renewed, extended, or modified in this state that provides coverage for hospital, medical, or surgical services must cover medically necessary costs for standard fertility preservation services when an insured member is diagnosed with cancer and the standard of care involves medical treatment that may directly or indirectly cause iatrogenic infertility.

(2) Coverage under this section may be subject to deductibles, coinsurance, and copayment provisions. Special deductible, coinsurance, copayment, or other limitations that are not generally applicable to other hospital, medical, or surgical services covered under the plan may not be imposed on coverage for fertility preservation services.

(3) This section does not apply to disability income, hospital indemnity, accident-only, vision, dental, or long-term care policies.

**Section 4. Cancer screening account.** (1) There is a cancer screening account in the state special revenue fund established in 17-2-102 to the credit of the department of public health and human services.

(2) The account consists of:

- (a) money collected from the donation provided for in 61-3-303(6)(d);
- (b) other gifts and donations to the department for cancer screening efforts; and
- (c) interest and income earned on the account.

(3) Money in the account must be used by the department of public health and human services to support cancer screening efforts.

The department shall administer the Montana medicaid program.

(2) The department and the legislature shall consider the following funding principles when considering changes in medicaid policy that either increase or reduce services:

(a) protecting those persons who are most vulnerable and most in need, as defined by a combination of economic, social, and medical circumstances;

(3) Medical assistance provided by the Montana medicaid program includes the following services:

- (6) In accordance with federal law or waivers of federal law that are granted by the secretary of the U.S. department of health and human services, the department may implement limited medicaid benefits, to be known as basic medicaid, for adult recipients who are eligible because they are receiving cash assistance, as defined in 53-4-201, as the specified caretaker relative of a dependent child and for all adult recipients of medical assistance only who are covered under a group related to a program providing cash assistance, as

defined in 53-4-201. Basic medicaid benefits consist of all mandatory services listed in subsection (3) but may include those optional services listed in subsections (4)(a) through (4)(r) that the department in its discretion specifies by rule. The department, in exercising its discretion, may consider the amount of funds appropriated by the legislature, whether approval has been received, as provided in 53-1-612, and whether the provision of a particular service is commonly covered by private health insurance plans. However, a recipient who is pregnant, meets the criteria for disability provided in Title II of the Social Security Act, 42 U.S.C. 416, et seq., or is less than 21 years of age is entitled to full medicaid coverage.

(7) The department may implement, as provided for in Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be amended, a program under medicaid for payment of medicare premiums, deductibles, and coinsurance for persons not otherwise eligible for medicaid.

(8) (a) The department may set rates for medical and other services provided to recipients of medicaid and may enter into contracts for delivery of services to individual recipients or groups of recipients.

(b) The department shall strive to close gaps in services provided to individuals suffering from mental illness and co-occurring disorders by doing the following:

(ii) publishing a report on an annual basis that describes the process that a mental health center or chemical dependency facility, as those terms are defined in 50-5-101, must utilize in order to receive payment from Montana medicaid for services provided to individuals of different ages, diagnoses, and treatments.

(9) The services provided under this part may be only those that are medically necessary and that are the most efficient and cost-effective.

(10) (a) The amount, scope, and duration of services provided under this part must be determined by the department in accordance with Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be amended.

(b) The department shall, with reasonable promptness, provide access to all medically necessary services prescribed under the early and periodic screening, diagnosis, and treatment benefit, including access to prescription drugs and durable medical equipment for which the department has not negotiated a rebate.

(11) Services, procedures, and items of an experimental or cosmetic nature may not be provided.

(12) (a) Prior to enacting changes to provider rates, medicaid waivers, or the medicaid state plan, the department of public health and human services shall report this information to the following committees:

- (i) the children, families, health, and human services interim committee;
- (ii) the legislative finance committee; and
- (iii) the health and human services budget committee.

(b) In its report to the committees, the department shall provide an explanation for the proposed changes and an estimated budget impact to the department over the next 4 fiscal years.

(13) If available funds are not sufficient to provide medical assistance for all eligible persons, the department may set priorities to limit, reduce, or otherwise curtail the amount, scope, or duration of the medical services made available under the Montana medicaid program after taking into consideration the funding principles set forth in subsection (2). (Subsection (3)(o) terminates September 30, 2023--sec. 7, Ch. 412, L. 2019.)"

**Section 9.** Section 61-3-303, MCA, is amended to read:

(2) A Montana resident who is an owner of a motor vehicle, trailer, semitrailer, or pole trailer with co-owners, one or more of whom are not Montana residents, may register the vehicle regardless of the fact that one or more of the co-owners would otherwise not qualify to register the vehicle under subsection (1) if the registering Montana resident is:

- (b) the principal operator of, and in whom is vested the right of possession and control of, the

vehicle.

(3) Except as provided in subsection (4), the county treasurer or an authorized agent shall register any vehicle for which:

(b) the county treasurer or an authorized agent confirms that the department has an electronic record of title for the motor vehicle, trailer, semitrailer, or pole trailer as provided under 61-3-101.

(4) (a) A county treasurer or an authorized agent may register a motor vehicle, trailer, semitrailer, or pole trailer for which a certificate of title and registration were issued in another jurisdiction and for which registration is required under 61-3-701 after the county treasurer or the authorized agent examines the current out-of-jurisdiction registration certificate or receipt and receives payment of the fees required in 61-3-701. The county treasurer or an authorized agent may ask the motor vehicle, trailer, semitrailer, or pole trailer owner to provide additional information, prescribed by the department, to ensure that the electronic record of registration maintained by the department is complete.
