

APPENDIX K: Emergency Preparedness and Response and COVID 19 Addendum

Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.¹ This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

<input checked="" type="checkbox"/>	Pandemic Epidemic or
<input type="checkbox"/>	Natural Disaster
<input type="checkbox"/>	National Security Emergency
<input type="checkbox"/>	Environmental
<input type="checkbox"/>	Other (specify):

D. **Brief Description of Emergency.** *In no more than one paragraph each*, briefly describe the: 1) nature of emergency; 2) number of individuals affected and the state’s mechanism to identify individuals at risk; 3) roles of state, local and other entities involved in approved waiver operations;

and 4) expected changes needed to service delivery methods, if applicable. The state should provide this information for each emergency checked if those emergencies affect different geographic areas and require different changes to the waiver.

On March 13, 2020, as authorized under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (the “Stafford Act”), President Donald J. Trump declared a state of emergency resulting from the ongoing Coronavirus Disease 2019 (COVID-19) pandemic. On January 31, 2020, pursuant to the Public Health Services Act, Secretary of Health and Human Services (HHS) Alex Azar declared a public health emergency. On March 12, 2020, Governor Steve Bullock issued an [executive order](#) declaring a state of emergency related to the continued spread of COVID-19 to allow the governor to direct a coordinated response to the outbreak of communicable disease. This includes mobilizing all available state resources, such as emergency funds or personnel from the National Guard. It also allows the governor to take additional steps to ease regulatory requirements, continue federal and multi-state coordination, and ensure continued access to critical services for the State’s most vulnerable.

The novel COVID-19 pandemic has already begun to place unprecedented burdens on Montana’s health care programs and systems. Per the [Centers for Disease Control and Prevention \(CDC\)](#), as of March 31, 2020, there are 177 reported COVID-19 cases; this number is expected to grow as more people become tested and the virus spreads to other communities in Montana, increasing the risk of exposure for the State’s residents. Montana has three approved 1915(c) waivers with 5400 participants, many of which are among the most vulnerable and susceptible to COVID-19. Health care workers caring for patients with COVID-19, individuals who have had close contact with persons with COVID-19, and travelers returning from affected international locations where community spread is occurring are all at elevated risk of exposure. Montana’s knowledge of COVID-19 is still rapidly evolving.

Montana has received approval to waive certain Medicaid and the Children's Health Insurance Program (CHIP) requirements to ensure sufficient health care items and services are available to meet the needs of individuals under 1135 of the Social Security Act. A number of requirements Montana has committed to in its Medicaid state plan and waiver applications are dependent on staff and provider ability to perform tasks. Due to the evolving nature of this crisis, we may reach a point where we must adjust service delivery methods, suspend home visits, and shift workload priorities due to staff shortages to in order to meet immediate health and safety needs

This amendment will apply waiver-wide for each waiver included in this Appendix, to all individuals impacted by the virus or the response to the virus.

F. Proposed Effective Date: Start Date: 01/27/2020 Anticipated End Date: 01/26/2021

G. Description of Transition Plan.

Individuals will transition to pre-emergency service status as soon as circumstances allow. Individual needs will be reassessed, as necessary, on a case by case basis following the return to pre-emergency services.

Suspend periodic licensing and quality reviews of provider agencies throughout the duration of the pandemic. Allow provider flexibility in daytime staffing levels as long as care quality is retained.

The specificity of such services including amount, duration and scope will be appended as soon as possible to ensure that the specific service is delineated accordingly to the date it began to be received. The Plan of Care will be updated no later than 30 days from the date the service was initiated.

Plans of Care that are due to expire within the next 60 days require case management contact to the participant using allowable remote contact methods to verify with the participant or representative that the current Plan of Care assessment and service, including providers, remain acceptable and approvable for the upcoming year. The state will verify by obtaining electronic signatures from service providers and the individual or representative, in accordance with the state's HIPAA requirements. Allow Plan of Care teams to temporarily suspend actions or activities that do not compromise the health and welfare of participants with the informed consent of the individual.

States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; or (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
