

Instructions for “Care/Case Management Model Cover Sheet”

The Department of Public Health & Human Services (DPHHS) seeks to collect care/case management models that are currently in use within DPHHS, throughout the statewide provider network, and models being used in the community.

Please use the cover sheet to provide basic information about the care/case management model that you currently use or a care/case management model that has potential value for consideration. Attach any supporting research, tools, technical guides, or regulation that supports the model. Use one cover sheet per model. Feel free to submit more than one model.

You are invited to present your model at the Care/Case Management Engagement Meeting on November 7 & 8, 2018. Please submit the cover sheet and supporting documents electronically by November 1, 2018 to be considered for the agenda. All other submissions will continue to be received via email or mail until November 15, 2018.

Submit the model cover sheet and supporting materials via email to trclark@mt.gov or mail to:
