SUBJECT
Psychosocial Consultation

REFERENCES: ARM: 37.90.441

DEFINITION

Psycho-social consultation services are those services provided by a licensed mental health professional which are within the scope and practices of the profession.

COVERED SERVICES

HCBS Psychosocial Consultation services are provided when state plan therapy limits have been met. This service includes counseling for the individual receiving HCBS services and consultation with providers and caregivers directly involved with a recipient and the development and monitoring of behavior programs.

Psychosocial consultation services are in addition to the limits of state plan therapy services,

SERVICE USAGE

This service is to assist direct caregivers in dealing with difficult situations or to provide general consultation for the appropriate delivery of HCBS services.
