### Developing the Permanent Placement Plan

As soon as possible after the need for an adoptive home is identified, the permanency team should review the child’s circumstances and needs and determine what action is necessary to identify an approved adoptive family and place the child adoptively. This plan must be presented to the court at the 12-month permanency plan hearing. (See Section 301-2, Required Judicial Hearings.)

### Adoption Referral

The child's Child Protection Specialist must provide a written adoption referral packet to a family resource specialist or family resource specialist supervisor. To expedite the subsidy processing, the referral must be submitted in conjunction with a permanent custody hearing. The following information must be contained in the referral packet:

- completed DPHHS-CFS-107 Birth Family Social and Medical History;

- a determination of the best interest criteria for adoptive placement of the child. (See form at the end of this section.)

### Circulation

States may not deny or delay the placement of a child for adoption when an approved family is available outside of the jurisdiction with responsibility for the child. In ALL instances in which a prospective adoptive home has not been identified within 30 days of the date the permanent custody hearing is completed, the child’s social history must be circulated. Circulation within DPHHS and to other licensed adoption agencies is required. Circulation should be completed by the assigned family resource specialist. If the foster parent(s) are an approved adoptive family and have been determined to be an appropriate family for the child, it is not necessary to circulate the child’s history.

### Adoption Circulation List

The social history will be sent to all family resource specialists and permanency planning specialists and/or appropriate Tribal agencies via hard copies or agency E-mail using the E-mail address of HHS Adoption List. If the worker wants to have verification that the information was sent to tribal agencies to demonstrate compliance with ICWA, the social history should be sent by certified mail. At the same time, a hard copy may be sent to the licensed adoption agencies listed below:

**AdoptUSKids**

If an adoptive family has not been located within 30 days after the social history of the child is circulated, the child must be referred to AdoptUSKids, the national website (www.AdoptUSKids.org), if the Department has been granted permanent custody of the child.

If a child is affiliated with a Native American tribe, written
approval to feature the child on *AdoptUSKids* must be received from the child’s tribe prior to the child appearing on *AdoptUSKids*. If the tribe does not respond to a request for approval within two weeks, contact the ICWA specialist for assistance.

If the Department has not been granted permanent custody, the child may be featured on *AdoptUSKids* only with written consent of the child’s parent(s). The regional permanency planning specialist or an Adoption Program Officer may be contacted for assistance in making the referral to *AdoptUSKids*. A referral to *AdoptUSKids* requires:

- a photo of the child;
- a completed *AdoptUSKids* profile;
- signed authorization form; and
- preparation of the child and his or her foster parent(s) for circulation on *AdoptUSKids*.

Before referral to *AdoptUSKids* is made, preparation of both the child and the child’s foster care provider is necessary and should be provided by the child’s worker with assistance from the permanency planning specialist. The preparation process should include one or more visits with the child to prepare the child and foster parent(s).

Preparation should include:

- an explanation as to why this method of recruitment is being utilized e.g., identification of specific families appropriate for children who are on *AdoptUSKids*, recruitment of adoptive families in general etc.;
- an explanation that this is only one way that the agency will try to locate a home for the child and if it does not result in an appropriate family, the agency will try other methods;
- an explanation of the pre-placement evaluation process that families must complete prior to any child being placed with them;
• discussion of possible reactions from other people who may see the AdoptUSKids website, e.g., how will foster parents respond to pressures that they should be “keeping” the child, what should child say to peers; and

• involvement of the child and foster care provider in developing the profile that will be on AdoptUSKids.

In addition to preparing the child and the child’s foster parent(s), it may be appropriate to prepare the child’s birth parent(s) or other extended family.

**Exception**

An exception to referral to AdoptUSKids can be granted by the Regional Administrator or designee. The exception request must be submitted in writing to the Regional Administrator or designee with a copy sent to the child protection specialist supervisor and permanency planning specialist. The request for an exception must justify why the referral to AdoptUSKids, is not in the child’s best interests. A written response approving or denying the request for an exception will be sent to the worker requesting the exception with a copy sent to the worker’s supervisor and to the permanency planning specialist.

**Waiting Child Program**

Any time after permanent legal custody with the right to consent to adoption is granted to the Department, a child may be referred to the Montana Waiting Child Program. The permanency planning specialist can facilitate the referral process as well as provide information on other potential opportunities for identifying an adoptive home for a child.
