

System of Care for Children's Mental Health Virtual Meeting (Dec. 10, 2015)

Survey Results

In the spirit of transparency we are sharing the results of the survey that was conducted of the attendees. This information is helpful to us as we perfect the SOC virtual meeting format. Please see the comments below each section that shares our commitment to use the data we collect to drive our meetings.

Response: We will be keeping the meeting about the same length next time.

- I would really like to see representation from each of the regions to hear what the key issues or solutions are in the region. I would like to know about funding opportunities the CMHB is pursuing and how that impacts the delivery system. I would like to know how the systems interact i.e. juvenile probation, children & family services, law enforcement, inpatient hospitals, title IV-E programs, tribal communities, and advances on access to services.

My main comment is to make sure everything is ready to go with the technology. I feel like a lot of valuable time was lost due to issues with the webinar, especially with the frequent muting and unmuting of the participants.

Technology worked well.

Some times it feels like we write letters of support and then never hear much more about how the program will actually benefit those DOC serves. The meeting also seemed rushed, without much dialogue, which is also a drawback of virtual meetings.

Response: We will work on the technology and are confident that it will get better with time. We will add an agenda item about how to attract more stakeholders to the meetings.

Response: Please keep us informed about the types of agenda items you would like to see us add.
