

Child Development Center – Part C Early Intervention Annual Performance Report **FFY 2015**

Indicator 1: Timely Provision of Services

Monitoring Priority: Early Intervention Services In Natural Environments

Compliance indicator: Percent of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner. (20 U.S.C. 1416(a)(3)(A) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target	100%	100%	100%	100%	100%	100%

FFY 2015	100% of infants and toddlers with IFSPs will receive the early intervention services on their IFSPs in a timely manner.
-----------------	--

REPORT OF PROGRESS – INDICATOR 1

	Measurable and Rigorous Target FFY 2015	Actual Target Data FFY 2013	Actual Target Data FFY 2014	Actual Target Data FFY 2015
Indicator 1	100%	100%	99%	100%

CDC met the compliance target for FFY 2015. Actual Target Data for FFY 2015 (July 1, 2015 – June 30, 2016):

RAW DATA CALUCULATION – INDICATOR 1

A	B	C	D	E
Total child records reviewed.	Children with IFSPs receiving early intervention services in a timely manner.	Children with IFSPs not receiving early intervention services in a timely manner due to documented exceptional family circumstances.	Percent of children with IFSPs who received early intervention services on their IFSPs in a timely manner or there was a documented exceptional family circumstance that prevented timely service delivery.	Total children not receiving timely service delivery for reason other than documented exceptional circumstances.
159	152	7*	100%	0

- 22/22 files reviewed by the provider agency noted infants and toddlers with IFSPs receive the early intervention services in a timely manner (30 days).

- 130/137 files reviewed by the Quality Improvement Specialist (QIS) noted Support and Service contacts correlate with frequency and intensity of services indicated in the IFSP;
 - 136/137 support and service summaries reflect activities related to IFSP outcomes and strategies; and
 - 134/137 records reviewed indicate that every effort is made to reschedule missed home visits or the IFSP is updated to reflect changes in the frequency/intensity of services.
 - 7/137 exceptional family circumstances identified: 5/137 due to scheduling difficulties and 2/137 due to death in family.
-

Methods Used in Collection of Data:

Data is based on two methods of data collection with each Part C provider agency. The two different data collection methods and schedules cover the delivery of services throughout FFY 2015 including both children with their initial IFSP as well as children with subsequent IFSPs.

Method 1: A survey method, following specific State Part C protocol, was used to collect data from the Part C provider agency from children's files for the Federal Fiscal Year of July 1, 2015 through June 30, 2016 and submitted to Montana's Part C Coordinator. The agency randomly selected a specified number of files based on the number of infants and toddlers served throughout the year. The collection provides the State a proportional representation by geographical region of the whole population served in Montana's Part C. After the selection of random files, data was reviewed to document compliance to timely provision of services for each file.

Data from Regional Part C agencies Sampling and Reporting for the APR Information:

- 22/22 files randomly selected using the *Research Randomizer Program* indicated infants and toddlers received Part C early intervention services within 30 days of parent(s) signing IFSP.

The definition and procedures/instructions ensure uniform implementation of data collection protocol. Each of the seven Part C provider agencies reported data to the Part C Coordinator who reviewed data for compliance and compiled the data for the APR. Each of the seven regional Part C provider agencies maintains a record for **Indicator 1** to include the identification of the children/families randomly selected so that the Quality Improvement Specialist may verify the accuracy (reliability and validity) of the data submitted. This will be completed during the following monitoring cycle (February 2017).

Method 2: The second method was annual on-site and the State's data management system monitoring by Montana's Part C Quality Improvement Specialist (QIS) using Montana's Comprehensive Monitoring Tool for Part C Early Intervention for FFY 2015. The QIS individually performed a review using Montana's Early Intervention Module (Montana's electronic system for data collection from IFSPs and Child Outcome Summaries) and scheduled on-site monitoring.

Data from Montana's Comprehensive Monitoring Tool:

- 130/137 files reviewed by the Quality Improvement Specialist noted Part C early intervention services provided in a timely manner.
- 7/137 files reviewed noted services were delayed due to scheduling difficulties (5) and death in the family (2).

Indicator 2: Services in Natural Environments

Monitoring Priority: Early Intervention Services In Natural Environments

Results indicator: Percent of infants and toddlers with IFSPs who primarily receive early intervention services in the home or community-based settings. (20 U.S.C. 1416(a)(3)(A) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target ≥	97%	97%	98%	98%	99%	99%

FFY 2015	98% of infants and toddlers with IFSPs will primarily receive early intervention services in the home or programs for typically developing children.
-----------------	---

CDC met the target for FFY 2015. Actual Target Data for FFY 2015 (July 1, 2015 – June 30, 2016).

REPORT OF PROGRESS – INDICATOR 2

	Measurable and Rigorous Target FFY 2015	Actual Target Data FFY 2013	Actual Target Data FFY 2014	Actual Target Data FFY 2015
Indicator 2	98%	100%	100%	100%

RAW DATA CALCULATION – INDICATOR 2:

A	B	C	D	E
Infants and toddlers with IFSPs receiving services in the home	Infants and toddlers with IFSPs receiving services in community-based settings	Infants and toddlers with IFSPs receiving services in other settings.	Total infants and toddlers with IFSPs reported.	Percent of infants and toddlers with IFSPs receiving services in the home or community-based settings.
190	3	0	190	100%

22/22 files reviewed by the provider agency noted services are provided in the home.

165/168 records as reported from the annual Child Count date, November 13, 2015, noted services are provided in the home.

Indicator 3: Early Childhood Outcomes

Monitoring Priority: Early Intervention Services In Natural Environments

Results indicator: Percent of infants and toddlers with IFSPs who demonstrate improved:

- A. Positive social-emotional skills (including social relationships);
- B. Acquisition and use of knowledge and skills (including early language/ communication); and
- C. Use of appropriate behaviors to meet their needs.

(20 U.S.C. 1416(a)(3)(A) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target A1 ≥	59%	72%	62%	65%	65%	68%
Target A2 ≥	53%	63%	53%	56%	56%	59%

Ongoing State-wide Remediation Required:

Concentrated Child Outcomes Summary ratings professional development, with the support of OSEP Technical Assistance Centers, is ongoing at each early intervention provider agency with expected completion July 1, 2017. CDC identified two staff members to participate in Montana's Train the Trainer for the Child Outcomes Summary Process. Hollin Buck and Cassandra Schrockenstein, in turn, provided systemic training to the agency's Family Support Specialists and Quality Improvement Specialist within the timelines provided by the State. **Exemplary practice:** the agency identified a system of monthly notices sent to FSSs and Coordinators of Part C for initial IFSPs and exit IFSPs which require Baseline or Exit ratings. Coordinators track these children to make sure Outcomes ratings are completed.

After collecting additional data for FFY 2017, the State will be able to make informed decisions about potentially adjusting targets in each of the three outcomes.

New Remediation required:

1. **State-wide Remediation Required:** Targeted support from the Office of Special Education Programs (OSEP) to improve performance outcomes for infants and toddlers in the three global outcomes.
2. **The State of Montana will receive targeted assistance to improve the percentage of children exiting Part C that are included in outcome data (≥ 25%).**
 - CDC exit data recorded and reported to OSEP for FFY 2015: 222. The number of CDC child records with an exit Child Outcome Summary: 88. Percentage of children exiting CDC who are included in Montana outcome data: **40%**. The State's percentage: **51%**.

Indicator 4: Family Involvement

Monitoring Priority: Early Intervention Services In Natural Environments

Results indicator: Percent of families participating in Part C who report that early intervention services have helped the family:

- A. Know their rights;
- B. Effectively communicate their children's needs; and
- C. Help their children develop and learn.

(20 U.S.C. 1416(a)(3)(A) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target A ≥	93%	93%	94%	94%	95%	95%
Target B ≥	93%	93%	94%	94%	95%	95%
Target C ≥	88%	93%	94%	94%	95%	95%

FFY 2015	<p>A. 94% will report early intervention services have helped the family know their rights</p> <p>B. 94% will report early intervention services have helped the family effectively communicate their child's needs</p> <p>C. 94% will report early intervention services has helped the family help their children develop and learn</p>
-----------------	--

CDC did not meet the FFY 2015 targets. Actual Target Data for FFY 2015 (July 1, 2015 – June 30, 2016):

REPORT OF PROGRESS – INDICATOR 4

	Measurable and Rigorous Target FFY 2015	Actual Target Data FFY 2013	Actual Target Data FFY 2014	Actual Target Data FFY 2015
Indicator 4A	94%	100%	88%	84%
Indicator 4B	94%	100%	88%	92%
Indicator 4C	94%	100%	81%	78%

49/142 respondents to CDC's Family Survey = 35%

RAW DATA CALCULATION – INDICATOR 4A

A	B	C
Total surveys received	Total families reporting that early intervention services have helped their family know their rights.	Percent of families reporting that early intervention services have helped their family know their rights.
49	41	84%

RAW DATA CALCULATION – INDICATOR 4B

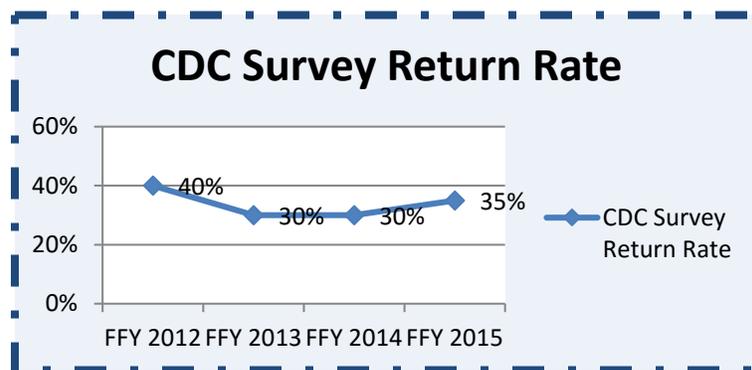

A	B	C
Total surveys received	Total families reporting that early intervention services have helped their family communicate their children’s needs.	Percent of families reporting that early intervention services have helped their family communicate their children’s needs.
49	45	92%

RAW DATA CALCULATION – INDICATOR 4C

A	B	C
Total surveys received	Total families reporting that early intervention services have helped their family help their children develop and learn.	Percent of families reporting that early intervention services have helped their family help their children develop and learn.
49	38	78%

Data from Montana’s Comprehensive Monitoring Tool:

As part of Montana’s general supervision monitoring, the Quality Improvement Specialist (QIS) reviewed 14 randomly selected files of children and families receiving Part C services from your agency and interviewed that sample of families to determine their satisfaction with Part C services. During the past year, 14/14 families interviewed indicated they were 100% satisfied with the services they have received; 14/14 reported they know their rights; 14/14 reported they can communicate their child’s needs; and 14/14 reported that early intervention helped them help their child learn and develop.

CDC indicates using the Family Survey results in the following ways to enhance program planning:

- Changes are incorporated into strategic plan; and
- Changes are made during Leadership Team meetings.

Indicator 5: Child Find (Birth to One)

Monitoring Priority: Effective General Supervision Part C / Child Find

Results indicator: Percent of infants and toddlers birth to 1 with IFSPs compared to national data. (20 U.S.C. 1416(a)(3)(B) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target ≤	1.39%	1.43%	1.43%	1.46%	1.46%	1.46%

FFY 2015	1.43% of all infants and toddlers, birth to 1, with IFSPs compared to national data, 1.15%
-----------------	---

CDC did not meet the FFY 2015 target. Actual Target Data for FFY 2015 (July 1, 2015 – June 30, 2016):

REPORT OF PROGRESS – INDICATOR 5

	Measurable and Rigorous Target FFY 2015	Actual Target Data FFY 2013	Actual Target Data FFY 2014	Actual Target Data FFY 2015
Indicator 5	1.43%	.58%	.68%	.57%

CDC’s Raw Data:

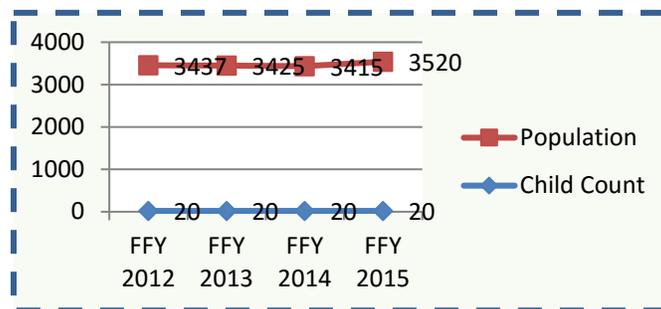

20 (infants and toddlers, birth to age one) with IFSPs divided by 3520* (*2015 KIDS Count data population estimate of infants and toddlers, birth to age one in Flathead, Lake, Lincoln, Mineral, Missoula, Ravalli, and Sanders Counties) times 100 = .57%.

New Remediation Required:

The State of Montana will receive targeted assistance to improve Montana’s efforts to serve infants and toddlers, birth to one year of age. OSEP will provide targeted assistance to improve Montana’s Section 618 Child Count. For each provider of Part C of IDEA, referral sources and their impact on the number of infants and toddlers, birth to one year of age, served will be analyzed including the following referral sources:

- Child Protective Services
- Hospitals, clinics, and medical personnel focusing upon low birthweight babies

Child Count Data (point in time count for the second Friday of November) reported by CDC for infants, birth to one year of age, with IFSPs at their agency:

Indicator 6: Child Find (Birth to Three)

Monitoring Priority: Effective General Supervision Part C / Child Find

Results indicator: Percent of infants and toddlers birth to 3 with IFSPs compared to national data. (20 U.S.C. 1416(a)(3)(B) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target ≤	2.14%	2.14%	2.20%	2.20%	2.20%	2.25%

FFY 2015	2.20% of all infants and toddlers, birth to 3 with IFSPs, compared to national data, 2.95%
-----------------	---

CDC did not meet the FFY 2015 target. Actual Target Data for FFY 2015 (July 1, 2015 – June 30, 2016):

REPORT OF PROGRESS – INDICATOR 6

	Measurable and Rigorous Target FFY 2015	Actual Target Data FFY 2013	Actual Target Data FFY 2014	Actual Target Data FFY 2015
Indicator 6	2.20%	1.92%	1.89%	1.62%

CDC's Raw Data:

168 infants and toddlers, birth to three years of age with IFSPs divided by 10,352* (*2015 KIDS Count data population estimate for infants and toddlers, birth to three years of age, in Flathead, Lake, Lincoln, Mineral, Missoula, Ravalli, Sanders Counties) times 100 = 1.62%.

New Remediation Required:

The State of Montana will receive targeted assistance to improve Montana's efforts to serve infants and toddlers, birth to three years of age. For each provider of Part C of IDEA, referral sources and their impact on the number of infants and toddlers served will be analyzed. OSEP will provide targeted assistance to improve Montana's Section 618 Child Count.

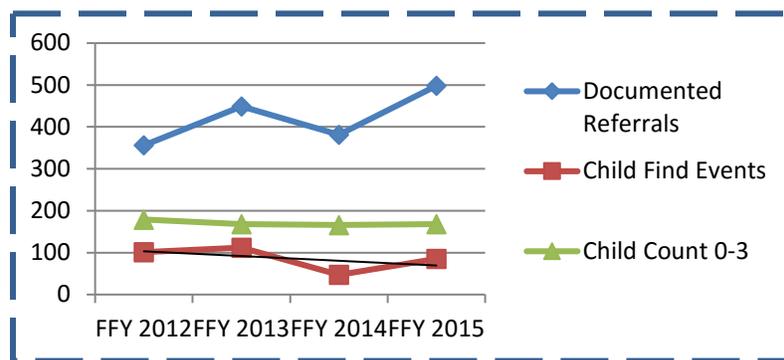

CDC Report of Child Find and Referral

Primary Referral Sources	Documented Referrals FFY 2013	Documented Referrals FFY 2014	Documented Referrals FFY 2015	Documented Child Find Events FFY 2015
Hospital facilities including NICU	46	26	19	26 events
Medical personnel	136	132	128	0
Parents or family member	120	113	174	0
Child care/early learning programs	1	5	10	Early Head Start/Head Start: 2 events Child care/preschools: 5 events
Local education agencies	18	22	14	29 events
Public health facilities	20	16	8	1 event
Child Protective Services	47	20	82	0
Specialized clinics or health care providers	15	21	40	0
Homeless shelters	0	0	0	0
Domestic violence agencies	0	0	0	0
Other (unidentified Social Services, friends and relatives)	46	25	23	12 events with unidentified community partners, unidentified community events, and unidentified "other"

The number of events held in conjunction with the primary referral source indicate great outreach effort on behalf of CDC with minimal results in terms of actual referrals to Part C.

CDC's reported data for Child Find, Referrals, and Child Count

FFY 2012, FFY 2013, FFY 2014, FFY 2015

Indicator 7: 45-day timeline

Monitoring Priority: Effective General Supervision Part C / Child Find

Compliance indicator: Percent of eligible infants and toddlers with IFSPs for whom an initial evaluation and initial assessment and an initial IFSP meeting were conducted within Part C's 45-day timeline. (20 U.S.C. 1416(a)(3)(B) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target	100%	100%	100%	100%	100%	100%

FFY 2015	100% of all infants and toddlers eligible for Part C services will have completed evaluation(s) and assessment(s) and an initial IFSP meeting conducted within Part C's 45-day timeline.
-----------------	---

CDC did not meet the compliance target. Actual Target Data for FFY 2015 (July 1, 2015 – June 30, 2016):

REPORT OF PROGRESS – INDICATOR 7

	Measurable and Rigorous Target FFY 2015	Actual Target Data FFY 2013	Actual Target Data FFY 2014	Actual Target Data FFY 2015
Indicator 7	100%	100%	98.5%	96%

RAW DATA CALCULATION – INDICATOR 7

A	B	C	D	E
Total child records reviewed	Children with timely evaluation and assessment and initial IFSP.	Children with evaluation and assessment and initial IFSP completed more than 45 days from the child's referral, with documented exceptional family circumstances that caused the delay.	Percent of children with timely evaluation and assessment and initial IFSP or there is a documented exceptional family circumstance that caused the delay in the completion of the evaluation and assessment and initial IFSP.	Children whose evaluation and assessment and initial IFSP were held more than 45 days from the date of the referral for reasons other than documented exceptional family circumstances.
115	91	19	96%	5

CDC Monitoring:

19/22 files reviewed with evaluation, assessment(s), and initial IFSP completed within 45 days.

3/22 delayed due to exceptional family circumstances.

QIS Monitoring:

72/93 files reviewed with evaluation, assessment(s), and initial IFSP completed within 45 days.
16/93 delayed due to exceptional family circumstances.
5/93 delayed due to agency circumstances.

FFY 2015 data per the data management system:

- 523 initial IFSPs completed.
- 386/523 completed within 45 day timeline (74%)
- 137/523 total overdue (26%)
 - 40/523 delayed due to exceptional family circumstances (7%).
 - 89/523 completed and submitted to the data management system after the 45th day (16%).
 - 17/523 delayed due to agency reasons (3%).
 - 1/523 delayed due to technical malfunction.

Raw Data from Montana’s Comprehensive Monitoring Tool:

72/93 files randomly selected using the *Research Randomizer Program* indicated infants and toddlers received timely evaluation, assessment and initial IFSP within 45 days.

- 16/93 files delayed due to exceptional family circumstances.
- 5/93 delayed due to agency circumstances.

Raw Data from Regional Part C agencies Sampling and Reporting for the APR information:

A proportional sample from each of the seven regional local provider agencies was required to complete a random sample of files using the *Research Randomizer Program* from all Part C eligible children with an IFSP and received services in FFY 2015. The files were reviewed for each child/family selected to determine if services were provided according to the definition of timely services, and recorded: (1) if the Part C IFSP was provided in a timely manner and if not, (2) the number of days over the child’s referral, (3) the reason the IFSP was not completed prior to the 45 day timeline.

19/22 files reviewed indicated infants and toddlers received timely evaluation, assessment(s), and initial IFSP within 45 days. 3/22 delayed due to exceptional family circumstances.

Remediation:

CDC will monitor IFSPs to identify and eliminate barriers to meeting the 45 day-timeline.

Indicator 8: Early Childhood Transition

Monitoring Priority: Effective General Supervision Part C / Child Find

Compliance indicator: The percentage of toddlers with disabilities exiting Part C with timely transition planning for whom the Lead Agency has:

- A. Developed an IFSP with transition steps and services at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddler’s third birthday;
- B. Notified (consistent with any opt-out policy adopted by the State) the SEA and the LEA where the toddler resides at least 90 days prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services; and
- C. Conducted the transition conference held with the approval of the family at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services.

(20 U.S.C. 1416(a)(3)(B) and 1442)

FFY 2013 – FFY 2018 Targets

FFY	2013	2014	2015	2016	2017	2018
Target	100%	100%	100%	100%	100%	100%

FFY 2015	<p>100% of all children exiting Part C will receive timely transition planning to support the child’s transition to preschool and other appropriate community services by their third birthday including.</p> <p>A. 100% IFSPs with transition steps and services developed at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddler’s third birthday;</p> <p>B. 100% Notification (consistent with the opt-out policy adopted by the State) to LEA/SEA where the toddler resides at least 90 days prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services; and</p> <p>C. 100% Transition conference occurred with the approval of the family at least 90 days, and at the discretion of all parties, not more than nine months, and prior to the toddler’s birthday for toddlers potentially eligible for Part B preschool services.</p>
-----------------	--

CDC met all compliance targets for FFY 2015. Actual Target Data for FFY 2015 (July 1, 2015- June 30, 2016):

REPORT OF PROGRESS – INDICATOR 8

	Measurable and Rigorous Target FFY 2015	Actual Target Data FFY 2013	Actual Target Data FFY 2014	Actual Target Data FFY 2015
