

The Office of Special Education Programs (OSEP) monitors states to ensure Part C services are in accordance with the Individuals with Disabilities Education Act (IDEA) 2011 utilizing indicators for which Montana sets targets, collects data, and indicates whether families and children are receiving high quality Part C supports and services.

Montana submits its Annual Performance Report in February to OSEP using data collected annually from the seven regional Part C provider agencies, each provider agency’s monitoring completed by the Quality Improvement Specialist for each region, and Child Count (618) data collected each November. Please review CDC’s Annual Performance Report for FFY 2012 and the analyzed data within to assist your administration with identifying areas of strength and opportunities for continued growth along with the identification of potential areas for improvement leading to ongoing continuous progress plans for your agency based upon data –driven decision making.

Changes are being made to the monitoring tool to better reflect strengths and areas needing improvement. This tool will be piloted in August 2014. Additional changes being considered include programs submitting a self-assessment and more frequent monitoring of Outcomes data as well as child count numbers in an effort to look at more current data.

The Child Development Center, under the helm of Director Cris Volinkaty in FFY 2012, serves the counties of Flathead, Lake, Lincoln, Mineral, Missoula, Ravalli, and Sanders. Child Count (618) indicates CDC served 179 infants and toddlers on November 15, 2012.

Child Count by Age – November 2012		
Birth to 1	1 to 2	2 to 3
20	58	101

Child Count by Race/Ethnicity – November 2012						
Hispanic/Latino	American Indian or Alaska Native	Asian	Black or African American	Native Hawaiian or Other Pacific Islander	White	Two or more races
4	24	2	3	0	142	4

Gender of Infants and Toddlers, Ages Birth through 2, Receiving Early Intervention Services November 2012	
Male	96
Female	83

Indicator 1: Percent of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner (30 days).

CDC met the target for FFY 2012.

Report of Progress – Indicator 1			
Measurable and Rigorous Target FFY 2012		Actual Target Data FFY 2012	
100%		100%	
Raw Data Calculation – Indicator 1			
Total child records reviewed.	Children with IFSPs receiving early intervention services in a timely manner.	Children with IFSPs not receiving early intervention services in a timely manner due to documented exceptional family circumstances.	Children not receiving timely service delivery for reason other than documented exceptional family circumstances.
26	25	1*	0
*1 family was out of state and received early intervention services five days late.			

Indicator 2: Percent of infants and toddlers with IFSPs who primarily receive early intervention service in the home or community-based settings.

CDC met and exceeded the target for FFY 2012.

Report of Progress – Indicator 2

Indicator 7: Percent of eligible infants and toddlers with IFSPs for whom an initial evaluation and initial assessment and initial IFSP meeting were conducted within Part C's 45-day timeline.

CDC met the target for FFY 2012.

Report of Progress – Indicator 7		
Measurable and Rigorous Target FFY 2012	Actual Target Data FFY 2012	
100%	Number: 20	100%
<p align="center">Measurement # of eligible infants and toddlers with IFSPs for whom an initial evaluation and initial assessment and an initial IFSP meeting were conducted within Part C's 45-day timeline divided by the number of eligible infants and toddlers evaluated and assessed for whom an initial IFSP was required to be conducted times 100.</p> <p>*Account for untimely evaluations, assessments and initial IFSP meetings, including the reasons for delays.</p>		

A. Total child records reviewed.	B. Children with timely evaluation, assessment, and initial IFSP.	C. Children with evaluation, assessment, and initial IFSP completed more than 45 days from the child’s referral, with documented exceptional family circumstances that caused the delay.	D. Percent of children with timely evaluation and assessment and initial IFSP or there is a documented exceptional family circumstance that caused the delay in the completion of the evaluation and assessment and initial IFSP.	E. Children whose evaluation and assessment and initial IFSP were held more than 45 days from the date of the referral for reasons other than documented exceptional family circumstances.
20	19	1*	100%	0
*Exceptional family circumstances: Child hospitalized out of state and IFSP was five days late.				

Indicator 8: Percentage of toddlers with disabilities exiting Part C with timely transition planning for whom the Lead Agency has:

- A. Developed an IFSP with transition steps and services at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddlers third birthday;
- B. Notified (consistent with any opt-out policy adopted by the State) the SEA and the LEA where the toddler resides at least 90 days prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services; and
- C. Conducted the transition conference held with the approval of the family at least 90 days, and at the discretion of all parties, not more than nine months, and prior to the toddler’s third birthday for toddlers potentially eligible for Part B preschool services.

CDC met all targets for FFY 2012.

Report of Progress – Indicator 8		
	Measurable and Rigorous Target FFY 2012	Actual Target Data FFY 2012
Indicator 8A: IFSPs with transition steps and services	100%	100%
Indicator 8B: Notification to the LEA if the child is potentially eligible.	100%	100%
Indicator 8C: Timely transition conference.	100%	100%
<p>Measurement 8A: # of toddlers with disabilities exiting Part C who have an IFSP with transition steps and services at least 90 day, and at the discretion of all parties not more than nine months, prior to their third birthday divided by the # of toddlers with disabilities exiting Part C times 100. $19/19 * 100 = 100\%$</p>		

Raw Data Calculation – Indicator 8A				
A	B	C	D	
Total child records reviewed.	Children with transition steps and services to support the child’s transition.	Children with transition plans that do not include steps and services to support the child’s transition.	Percent of children with transition plans including steps and services.	
19	19/19	0	100%	
<p>Measurement 8B: # of toddlers with disabilities exiting Part C where notification (consistent with any opt-out policy adopted by the State) to the SEA and LEA occurred at least 90 days prior to their third birthday for toddlers potentially eligible for Part B preschool services divided by the # of toddlers with disabilities exiting Part C who were potentially eligible for Part B times 100.</p> <p>19/19*100 = 100%</p>				
Raw Data Calculation – Indicator 8B				
A	B	C	D	E
Total child records reviewed.	Children whose families opted out of notification.	Children with notification to the LEA.	Children for whom the LEA was not notified (excluding children whose families opted out of notification).	Percent of children with notification to the LEA.
19	0	19	0	100%
<p>Measurement 8C: # of toddlers with disabilities exiting Part C where the transition conference occurred at least 90 day, and at the discretion of all parties not more than nine months prior to the toddler’s third birthday for toddlers potentially eligible for Part B divided by the # of toddlers with disabilities exiting Part C who were potentially eligible for Part B times 100.</p> <p>18/18*100 = 100%</p>				
Raw Data Calculation = Indicator 8C				
A	B	C	D	E
Total child records reviewed.	Children for whom the family did not provide approval to conduct the transition conference due to exceptional family circumstances.	Total child records reviewed less the children for whom the family did not provide approval to conduct the transition and the transition conference was not held due to exceptional family circumstances.	Children with timely transition conference.	Percent of children with timely transition conference if child potentially eligible for Part B.
19	1*	18	18	100%
Exceptional family circumstance: Biological parent was incarcerated.				

Indicator 9: General supervision system (including monitoring, complaints, hearings, etc.) identifies and corrects noncompliance as soon as possible but in no case later than one year from identification.

Noncompliance issues were not found with CDC through any monitoring processes; therefore, this indicator does not apply.

Indicator 12: Percent of hearing request that went to resolution session that were resolved through resolution session settlement agreements (applicable if Part B due process procedures are adopted).

This indicator is not applicable to Montana as the Part B due process procedures have not been adopted.

Indicator 13: Percent of mediations held that resulted in mediation agreements.

CDC did not have any requests for mediation for FFY 2012, which follows the trend from previous APRs.

Indicator 14: State reported data (618 and State Performance Plan and Annual Performance Report) are timely and accurate.

CDC reported in a timely manner and accurately for the 618 data and APR.
