ten steps to
breastfeeding friendly
child care centers

RESOURCE KIT
For the past 500,000 years, human babies have been nourished on their mothers' milk. It is only for the past 60 years that a highly processed, artificial food, known as infant formula, has been available. Breastfed babies experience lasting health benefits including reduced risk of infectious diseases, diabetes, childhood cancers, obesity and asthma. Women who breastfeed their children are at lower risk for breast cancer and ovarian cancer.

Another benefit of breastfeeding is financial. The cost of feeding a standard infant formula for one year is about $1,500. It is estimated that private and government insurers spend a minimum of $3.6 billion to treat diseases and conditions preventable by breastfeeding such as otitis media, gastroenteritis, and necrotizing enterocolitis.

Breastfeeding makes good business sense. Companies that provide time and space for women to express their milk when they must be apart from their babies have been proven to enjoy significant cost savings, including lower rates of absenteeism, lower health care costs, better retention of employees, and higher productivity and company loyalty.

Many types of interventions have been implemented to try to increase breastfeeding initiation, exclusivity and duration. Strategies to assist child care facilities to offer support for breastfeeding are recommended in the CDC Guide to Breastfeeding Interventions from the Centers for Disease Control and Prevention, and in the Wisconsin Nutrition and Physical Activity State Plan. This toolkit serves to provide resources to community stakeholders to assist child care center employees and owners with accurate and consistent lactation support to breastfeeding families whose babies are in their care.

We know it will take the active involvement of many public and private partners to change systems, community and individual behaviors. Child care centers are one key environment for that change to take place. By working together, the people of Wisconsin have a great opportunity to create communities that support breastfeeding and reduce the health and economic burden of obesity and chronic diseases.

With warm regards,

Karen E. Timberlake
Secretary, Department of Health Services

---

The Self-Appraisal Questionnaire is designed to help child care centers perform a review of their existing practices and their current compliance with the requirements for the Breastfeeding Friendly designation. It's an ideal tool to assess key areas where improvements are necessary in order to support breastfeeding mothers and babies. Once the Self-Appraisal Questionnaire is complete, it can be used to prioritize areas where improvements are needed.

**Staff**

Name and title of person completing this form __________________________
____________________________________________________________________

Date form completed _________________________________________________

Name and title(s) of person responsible for initiating and assessing progress in completing the steps to become “Breastfeeding Friendly” __________________________
____________________________________________________________________

**10 Steps to Successful Breastfeeding for Child Care Centers**

**Step 1** Designate an individual or group who is responsible for development and implementation of the 10 Steps.

- Does the Child Care Center have a designated individual or group responsible for initiating and assessing progress in completing the steps to become “Breastfeeding Friendly?”
- Does the Child Care Center have a designated individual or group responsible for reviewing policies, procedures and protocols for practice?
- Does the Child Care Center have a designated individual or group responsible for ensuring staff receive orientation and continuing education?

**Step 2** Establish a supportive breastfeeding policy and assure that all staff are aware of and follow the policy.

- Does the Child Care Center have a written breastfeeding policy?
- Does the policy cover all 10 Steps?
- Are all staff trained on the policy and monitored for compliance?
- Is the policy available for review by women and their families if requested?

**Step 3** Establish a supportive worksite policy for staff members who are breastfeeding.

- Are breastfeeding employees provided a flexible schedule for breastfeeding or pumping to provide breastmilk for their children?
- Are breastfeeding employees provided a private and clean place to breastfeed their babies or express milk?
- Does this area have an electrical outlet, comfortable chair, and nearby access to running water?

**Step 4** Train all staff so that they are able to carry out breastfeeding promotion and support activities.

- Are new staff oriented to the breastfeeding policy and appropriately trained within six months?
- Are all staff who have responsibility for care of infants and children able to provide breastfeeding information and support to help mothers continue breastfeeding when working or going to school?
- Do staff work with family members to develop babies’ individual breastfeeding support plans and regularly update the plans?
- Do staff promote exclusive breastfeeding until babies are about six months old with continued breastfeeding to one year and beyond?

**Step 5** Create a culturally appropriate breastfeeding friendly environment.

- Does the child care center display culturally appropriate pictures and posters of breastfeeding and exclude those supplied by formula manufacturers?
- Are brochures, pamphlets and other resources about breastfeeding displayed for easy access?
- Does the child care center offer information on the benefits of breastfeeding to all families enrolled at the child care center?
- Are fathers included in discussions about breastfeeding?

**Step 6** Inform expectant and new families and visitors about your Center’s breastfeeding friendly policies.

- Are all staff able to explain the benefits of exclusive breastfeeding for six months and do mothers receive this information?
- Do staff members willingly tell visitors about your breastfeeding policies?
- Are breastfeeding policy and practice materials included in the Center’s information package?
- Are current and prospective parents encouraged to drop in and view the breastfeeding friendly environment?
Step 7  Stimulate participatory learning experiences with the children related to breastfeeding.

- Do learning activities incorporate the concept that animals have baby animals of the same kind, and have special ways they are prepared to care for them, including how they are fed?  ○ ○
- Does the Center offer children’s books that contain pictures of breastfeeding, play dolls that are nursing and other learning experiences that normalize breastfeeding?  ○ ○

Step 8  Provide a comfortable place for mothers to breastfeed or pump their milk in privacy, if desired. Educate families and staff that a mother may breastfeed her child wherever they have a legal right to be.

- Is a private, clean, quiet space available for mothers to breastfeed and/or express milk?  ○ ○
- Does this area have a comfortable chair, electrical outlet and nearby access to running water?  ○ ○
- Does the Center provide refrigerator space for breastfeeding mothers to store their expressed breast milk?  ○ ○
- Does the Center educate staff and families that a mother may breastfeed her child wherever they have a legal right to be?  ○ ○

Step 9  Establish and maintain connections with your local breastfeeding coalition or other community resources.

- Does the child care center coordinate and exchange information with the local breastfeeding coalition, e.g., WIC Project, Head Start, UW-Extension, schools, and health care providers?  ○ ○

Step 10  Maintain an updated resource file of community breastfeeding services and resources kept in an accessible area for families.

- Are all breastfeeding mothers given contact details of community based breastfeeding support groups, breastfeeding peer counselors, and lactation specialists?  ○ ○
- Are mothers with breastfeeding concerns referred to above community resources?  ○ ○
- Are current printed or electronic lactation resources available to breastfeeding clients and employees?  ○ ○

Designate an individual or group who is responsible for development and implementation of the 10 steps.
Planning is needed to develop and implement the components of a Breastfeeding Friendly Child Care Center program. The following activities offer a manageable process:

**Gain support from management and staff**

The key to the success of the program is support from all levels of management as well as commitment from staff members. Beginning with key child care managers, provide both verbal and written information on the goals and benefits of this program to the agency and community. The United States Breastfeeding Committee’s “Breastfeeding and Child Care” document, www.usbreastfeeding.org/Issue-Papers/Child care.pdf, provides information to initiate a conversation with key child care center personnel. Use staff meeting time to present the program’s concepts and solicit both ideas and volunteers for a planning workgroup.

**Assemble a team**

The number in the team or workgroup will depend on the size of the child care center and the scope of the program activities. This group could be a subcommittee of an existing wellness team or health promotion committee. It is best if the team includes both management and direct care staff members. Team members can be charged with the responsibility for plans to develop, implement and sustain steps 2-10 within the child care center.

**Designate a coordinator**

Although the team or workgroup can share the responsibilities of the program, having one enthusiastic, goal-oriented person coordinating efforts increases the likelihood that the program will be well managed and implemented. It is important that a portion of the coordinator’s time be dedicated to the program and that those responsibilities are reflected in the person’s job description and work plan.

**Team meetings**

People working on the 10 steps will need to regularly meet and link to community resources (e.g., public health departments, lactation consultants, breastfeeding coalitions and breastfeeding support groups).

**Planning is key for a quality program**

Once the energetic and enthusiastic team is identified, take time to plan the program components before implementation. Start with the Self-Appraisal Questionnaire to identify components that need work. Plan for sustainability to avoid the team / workgroup being overworked and ensure a long-term commitment for the child care center to increase the likelihood for the program’s success. Make sure the plans are geared to meet the needs of the families served and the child care center’s employees.

**Action Plan**

Child care centers can develop an action plan to document program components identified from the Self-Appraisal Tool. An action plan provides written guidance toward implementing specific measures in becoming a breastfeeding friendly child care center. See Appendix A: Sample and Blank Planning Worksheets, pages 34 and 35.

**Continuing Education Units (CEUs) for directors & teachers**

Child care center staff can earn CEUs. Local health departments and breastfeeding coalitions can become training sponsors and create a registered barcode to issue child care staff for this work www.t-net.org. CEU forms and materials are available from the Wisconsin Department of Children and Families for child care staff reading this publication. Call 608.222.1123 for assistance or go to www.the-registry.org.
Establish a supportive breastfeeding policy and require all staff be aware of and follow the policy.

A breastfeeding policy is designed to assist child care providers in supporting breastfeeding mothers and infants and in protecting the health of breastfed infants.

A breastfeeding friendly child care center policy will address a certain standard of care:

• Mothers will be welcome to breastfeed in the center;

• Families will receive accurate information about breastfeeding, and;

• Child care center staff are trained to provide breastfeeding information and support to help mothers continue to breastfeed when they return to work or school.

Resources
See the sample policy on the next page as well as Appendix C: Additional Resources, page 40.
The ABC Child Care Center is committed to providing ongoing support to breastfeeding mothers. Well-defined research has documented a multitude of health benefits to both the mother and infant. The ABC Child Care Center subscribes to the following policy:

**Breastfeeding mothers shall be provided a place to breastfeed or express their milk.**

Breastfeeding mothers, including employees, shall be provided a private and sanitary place to breastfeed their babies or express milk. This area has an electric outlet, comfortable chair, and nearby access to running water. Mothers are also welcome to breastfeed in front of others if they wish.

**A refrigerator will be made available for storage of expressed breast milk.**

Breastfeeding mothers and employees may store their expressed breast milk in the center refrigerator. Mothers should provide their own containers, clearly labeled with name and date.

**Sensitivity will be shown to breastfeeding mothers and their babies.**

The center is committed to providing ongoing support to breastfeeding mothers, including providing an opportunity to breastfeed their baby in the morning and evening, and holding off giving a bottle, if possible, when mom is due to arrive. Infant formula and solid foods will not be provided unless requested by the mother. Babies will be held closely when feeding.

**Staff shall be trained in handling breast milk.**

All center staff will be trained in the proper storage and handling of breast milk, as well as ways to support breastfeeding mothers. The center will follow human milk storage guidelines from the American Academy of Pediatrics and Centers for Disease Control and Prevention to avoid waste and prevent food borne illness. Special precautions are not required in handling breast milk.

**Breastfeeding employees shall be provided flexible breaks to accommodate breastfeeding or milk expression.**

Breastfeeding employees shall be provided a flexible schedule for breastfeeding or pumping to provide breast milk for their children. The time allowed would not exceed the normal time allowed to other employees for lunch and breaks. For time above and beyond normal lunch and breaks, sick/annual leave may be used, or the employee can come in earlier or leave later to make up the time.

**Breastfeeding promotion information will be displayed.**

The center will provide information on breastfeeding, including the names of area resources should questions or problems arise. In addition, positive promotion of breastfeeding will be on display in the center.
Establish a supportive worksite policy for staff members who are breastfeeding.

A supportive work environment can have a positive influence on breastfeeding mothers as they return to work. It can be an informal support system for breastfeeding mothers. Women need access to supportive individuals and safe environments to breastfeed comfortably in common places where mothers and children go — in work and child care settings.

Supporting breastfeeding employees by reducing worksite barriers will relieve stress. Many women choose not to breastfeed or to discontinue breastfeeding because of workplace constraints.

Women who do not breastfeed after returning to work miss more work time caring for sick children and their family health care costs are greater. Women whose breastfeeding is supported at work are happier, more productive and less likely to resign.

Source

Resources

See Appendix C: Additional Resources, pages 40-41.
All staff are oriented to the breastfeeding policy and appropriately trained within six months of hire

- Employees identify and promote the location of the room where mothers can breastfeed or express their milk.
- Staff demonstrates safe storage and handling of human milk. Breastmilk is properly labeled. Gloves are not required when handling human milk. Go to www.bfmed.org/ace-files/protocol/milkstorage_ABMed.pdf for detailed information.
- Breastfeeding is promoted and encouraged whenever the mother is at the child care center.
- Infant care plans are designed to avoid large feedings prior to mothers scheduled arrival.
- All employees are encouraged to attend a class or continuing education session on breastfeeding once a year to keep current on supportive techniques.

Hints to Bottle-Feeding the Breastfed Baby

- Breast milk is digested quickly and easily. Thus breastfed babies usually eat more frequently than formula fed babies. Timing of feedings may range between 1-1/2 to 3 hours. Feed breastfed babies when their cues indicate hunger, not on a time schedule. Early hunger cues include mouth movements, rooting, sucking on hands, and restlessness. Note crying is a late hunger cue.
- Feed the baby in a way that mimics breastfeeding. Hold the baby in an upright position, and never put a baby to bed with a bottle. Switch holding the baby from your right arm to your left arm midway through a feeding. This provides equal eye stimulation and facial muscle development, helps pace feedings, and keeps the baby from developing a preference for one side.
- Let the baby control the start of the feeding. Stroke the baby’s lips with the nipple to illicit a rooting response and a wide-open mouth. Allow the infant to gape widely for the bottle nipple (rather than pushing it in). Allow the baby to “accept” or draw in the nipple.
- Feed slowly. Liquid flows out faster out of bottling equipment. Sucking on a bottle nipple may need to be paced. Pause frequently during feedings to burp, switch sides, or talk to the baby, and avoid holding the bottle in a vertical position. Rapid feedings can lead to overfeeding, which puts the mother’s milk supply at risk and can cause discomfort in the baby. Infants need time to recognize that they are full.
• Stop feeding when the baby is ready. Do not force a baby to finish “just the last bit” of a bottle. If the baby is drowsing off and releasing the bottle nipple before the bottle is empty, the baby is done. Don’t reawaken the baby to take more. If bottles are often left unfinished, ask the mother to send milk in smaller amounts.

• Breastfed babies sometimes eat smaller amounts at each feeding than babies who are formula fed. The amount of milk consumed may or may not increase with the age of the baby. A breastfed baby often consumes higher quantities when at the breast at other times within the 24 hours.

**Verbalize and Initiate support**

Staff that have responsibility for care of infants and children provide breastfeeding information and support to help mothers continue breastfeeding when working or going to school.

• Recognize that mothers may have strong feelings about continuing to breastfeed when they are separated from their babies. Providing breastfeeding support may increase their confidence in you as their child care provider.

• Put mothers in touch with other mothers who have successfully combined breastfeeding and working or going to school.

• Encourage mothers to breastfeed onsite when baby is dropped off or picked up, as well as during the day if mother can leave work site.

• Share written and web based resources about successfully combining breastfeeding and returning to work or school with the mother.

**Infant Care Plans**

Staff work with family members to develop babies’ individual breastfeeding support plans and regularly update their plans.

• Ensure that the mother clarifies what she wants you to do if her baby is hungry and she is late, or her supply of expressed breast milk is gone.

• Encourage nursing mothers to come and breastfeed and/or express milk comfortably and at their convenience.

**Provide Information on Introduction of Baby Foods**

Staff promote exclusive breastfeeding until babies are about six months old with continued breastfeeding to one year and beyond.

• Educate the mother that the only food her baby needs for the first six months of life is breast milk.

• Infant formula and solid foods will not be provided at the center unless prescribed by the infant’s medical provider.
Child care centers can create a culturally appropriate breastfeeding friendly environment by:

- Mentioning breastfeeding first in all written and verbal communication when educating families regarding infant feeding.
- Limiting the visibility of infant formula and related materials.
- Storing supplies of baby bottles and infant formula out of view of families.
- Excluding the use of materials with pictures of baby bottles or those supplied by infant formula manufacturers.
- Displaying posters and pictures of racially and ethnically diverse breastfeeding families.
- Using culturally diverse breastfeeding educational materials (see Steps 7 and 10)
- Monitoring child care center staff interactions with families regarding infant feeding decisions and breastfeeding support. Provide additional staff training as needed.

Resources
See Appendix C: Additional Resources, page 42.
Inform expectant and new families and visitors about your center’s breastfeeding friendly policies.

One of the most-often-cited barriers to breastfeeding reported by mothers is embarrassment and perceived lack of a supportive environment. A clear message that the child care setting sees breastfeeding as the normal and accepted way to feed babies and that efforts are made to provide a comfortable and welcoming environment for breastfeeding is an important message for all families, children, staff and visitors who use the facility.

1) Include information on the Center’s supportive breastfeeding policies in informational handouts for prospective families.

2) Point out supports for breastfeeding, such as a comfortable chair for nursing, refrigerator space for storing milk and a listing of local breastfeeding resources, when giving tours of the facility.

3) Have available information on local (city, county and state) laws protecting the rights of mothers to breastfeed in public. Inform staff about how to deal with questions or concerns raised by visitors or others who may object to seeing a mother breastfeed. (See Step 8)

4) Consider posting “Breastfeeding is welcome here” messages or posters.

The international breastfeeding icon can be downloaded from the website at [www.mothering.com/sections/action_alerts/iconcontest/icon-winner.html](http://www.mothering.com/sections/action_alerts/iconcontest/icon-winner.html).

Resources

See Appendix C: Additional Resources, pages 42-43.
Stimulate participatory learning experiences with the children, related to breastfeeding.

Exposing children to breastfeeding women is an important way to teach about natural infant feeding. Provide appropriate learning activities for children to learn about breastfeeding, including how mammals provide species-specific milk for their young.

Resources

Provide a comfortable place for mothers to breastfeed or pump their milk in privacy, if desired.

Educate families and staff that a mother may breastfeed her child wherever they have a legal right to be.

Providing a welcoming breastfeeding friendly atmosphere in a child care center encourages mothers to continue breastfeeding after returning to work or school. Mothers may prefer a quiet, private, clean space with a comfortable chair to breastfeed. At times, they may wish to breastfeed in the presence of others.

A private space for safe expression of breast milk is also advisable. A breast pumping area provides mothers the opportunity to pump at the center. Labeled expressed mother’s milk can be left at the center for feedings when mother is not available to breastfeed. Employees can also use this pumping area.

A toilet stall in a restroom is not suitable as a lactation space. The following chart provides information for furnishing a mother’s lactation room.

Resources

See Appendix C: Additional Resources, page 45.
### Accommodation Essentials
- Private room with a lock on door
- Electrical outlet
- Chair
- Small table
- Waste basket
- Nearby sink with running water
- Nearby refrigerator or storage space for small cooler

### Modest Accommodations
- Private room with a lock on door
- Electrical outlet
- Chair - upholstered, comfortable
- Small table
- Waste basket
- Sink with running water nearby or in room
- Small refrigerator nearby or in room
- Employer owns or rents an electric breast pump.
  - Mothers bring own attachment kit.
- Nursing stool
- Towel dispenser
- Wall clock
- Mirror

### Luxurious Accommodations
- Private room with a lock on door
- Electrical outlet
- Chair - upholstered, comfortable
- Small table
- Waste basket
- Sink with running water nearby or in room
- Small refrigerator nearby or in room
- Employer owns or rents an electric breast pump.
  - Mothers bring own attachment kit.
- Nursing stool
- Towel dispenser
- Wall clock
- Mirror
- Lending library of breastfeeding resources
- Radio/cassette/CD player
- Telephone
- Appealing art for walls

---

**City of Madison Law**

23.37 *Interfering with breastfeeding prohibited*

Notwithstanding any other provision of law, a mother or her surrogate may breastfeed her child and may express breast milk in any location, public or private, except the private home or residence of another, where the mother or her surrogate and the child are otherwise authorized to be present. Any person who intentionally interferes with a mother’s or her surrogate’s attempts to breastfeed her child or to express breast milk, except the owner or resident of a private home or residence, shall be subject to a forfeiture of not less than $25.00 nor more than $250.00 for each such violation.

*If you experience a violation of either Dane County’s or Madison’s law, Contact Your Local Police Department and file a report.*

**Dane County Law**

34.015 *Interference with breastfeeding prohibited*

No person shall interfere with a mother breastfeeding her child or expressing breast milk within any public accommodation where the mother would otherwise be authorized to be.

Penalty is $10 to $100 forfeiture.

**State of Wisconsin Laws**

Two laws have been proposed:

1) Protecting a woman’s right to breastfeed in public

2) Requiring private businesses to accommodate employees needing to breastfeed or express milk, within 1 year of the birth of the child.

Both laws passed the Wisconsin State Senate in the 2007-08 session, but neither passed the Wisconsin State Assembly.

---

Also consider reporting challenges that arise and share these with community breastfeeding coalition/networks, so we can work together to address and overcome barriers successfully.
Establish and maintain connections with local breastfeeding coalition or community breastfeeding resources.

**Step 9**

Explore how your agency can support breastfeeding promotional campaigns within your community. Join breastfeeding advocacy groups, coalitions, councils or networks. Share with other businesses your employee and client policies to extend breastfeeding duration of working mothers. Support legislation, fund raising projects and health fairs to further breastfeeding education of the general public.

**Resources**

Wisconsin Department of Health Services: Wisconsin Breastfeeding Resource Directory, [www.dhs.state.wi.us/health/nutrition/Breastfeeding/ResourceDir.htm](http://www.dhs.state.wi.us/health/nutrition/Breastfeeding/ResourceDir.htm)

Also, see Appendix C: Additional Resources, page 45.
Maintain an updated resource file of community breastfeeding services and resources kept in an accessible area for families.

**A breastfeeding information resource file** can be a great asset to a lactating mother. Stock this file with contact names and numbers of local breastfeeding professionals and breastfeeding peer support groups, pamphlets and a phone. A computer with Internet access and posted website resources is also an option. Child care center employees can direct families to this information and also have personal access.

**Resources**

See Appendix D: Community Resources, page 46.
**Planning Worksheet**

**Recommendations:** Describe the strategies selected from the Self-Appraisal Questionnaire

**Activities:** List the activities required to meet the recommendation

**Materials, Resources and Personnel:** List the individuals who will do the work & the resources and tools they need to get the job done.

**Time Frame:** When will implementation begin? How long will it take to finish?

**Evaluation:** How will you measure your successes and/or misfortunes?

| step 1: Promote work of Breastfeeding Friendly Team to staff and families in child care center | Team member gives report at staff meetings; write article for parent newsletter | Team leader or designated member | Monthly staff meetings; quarterly newsletters | Meeting minutes; copy of parent newsletter |
| step 2: Assure all staff are aware of and follow a breastfeeding policy | Draft and implement a policy on breastfeeding for the childcare center | Staff input Management support and sign-off | 1 month | Policy in place |
| step 3: Create a policy and environment for employees | Draft and implement a policy; create a lactation space for staff | Staff input Management support and sign-off Space and funding | 2 months | Policy in place and lactation room available to staff |
| step 10: Create a resource file | Inventory current resources; add new resources | Staff time, funding | 4 months January – April | Pre/Post listing of resources in file |
Below is a list of children’s books that can be used as part of learning experiences that normalize breastfeeding. Books available at libraries, bookstores or order from the web. Illustrations are by the author where not otherwise indicated. Remember that no book is perfect or will fit every need.

For Nursing Toddlers

**We Like to Nurse** by Chia Martin. Illustrated by Shukyo Lin Rainey. *Hohm Press*, 1995. Paperbound. Fourteen animal pairs are shown nursing in bright, flat pictures with simple text, ending with a human mother and baby. A favorite of breastfed toddlers. (ages 1 - 3)

**Mama Outside, Mama Inside** by Dianna Hutts Aston. Illustrated by Susan Gaber. *Henry Holt*, 2006. A mother bird in a tree and a human mother in the house nearby prepare for the births of their babies and tenderly care for them with the fathers’ help. One breastfeeding illustration. (ages 1 - 4)

**Breastmilk makes my tummy yummy** by Cecilia Moen. *Midsummer Press, Sweden*, 1999. This book is ideal for a nursing toddler. Simple, rhymed verse accompanies the multicultural illustrations of babies and toddlers nursing in various situations: when angry or sad, in the bath tub, when mummy is on the phone, in a family bed, etc. Tandem nursing is also shown: “Two can breastfeed without fuss, there is room for both of us.” (ages 2 - 4)

**Mama’s Milk** by Michael Elsohn Ross. Illustrations by Ashley Wolff. *Tricycle Press*, 2007. Beautiful illustrations of 17 different mammals nursing as well as human mothers and babies from three different ethnic groups accompany a simple, rhyming text. The final pages give some facts about nursing. Includes cosleeping, nursing in the park, carrying baby in a sling. (ages 2 - 5)

For the Sibling of a Breastfed Baby

**My New Baby** by Annie Kubler. *Child’s Play (International)* Ltd., 2000. This 14 page, wordless board book shows a toddler helping his family to care for the new baby. Two breastfeeding pictures. (ages 1 - 2)

**We Have a Baby** by Cathryn Falwell. *Clarion Books*, 1993. This is a picture book for the very young child with a new sibling. Just 32 pages long, with only a few words on each page, the book shows a loving family with both parents actively involved in the care of the toddler and the new baby. The mother is shown nursing the baby, her arm around the toddler who is nestled against her and eating milk and a cookie. (ages 1 - 3)

**Mama, Daddy, Baby and Me** by Lisa Gewing. Illustrated by Donna Larimer. *Spirit Press*, 1989. The very simple, rhymed text and appealing illustrations show a family welcoming a new baby, told from the toddler sibling’s point of view. One picture of the mother and baby nursing. (ages 2 - 4)

**What Baby Needs** by William Sears MD, Martha Sears RN, and Christie Watts Kelly. *Little Brown & Company*, 2001. The needs of a new baby are described in terms a preschooler can understand and relate to. The baby is carried in a sling and sleeps in the parents’ room. The father is very involved in this baby’s care. Feelings of the older siblings are recognized as the book models many positive ways for children to interact with a new baby. Includes two nice breastfeeding pictures and one of bottle feeding mother’s milk.

A companion book about pregnancy, *Baby on the Way*, explains the emotional and physical changes that occur when a mother is expecting a new baby. Includes a nice breastfeeding illustration. (ages 3 - 6)
Will There Be a Lap for Me? by Dorothy Corey. Illustrated by Nancy Poydar. Albert Whitman & Company, 1992. Preschooler Kyle, from a middle class African-American family, misses his special place on his mother's lap as her pregnancy advances and the new baby arrives. A full page illustration shows Mother nursing the new baby with Kyle beside her on the sofa. Kyle is sad that the baby needs to eat so often, but Mother makes room on her lap and special time in her day for him again. (ages 3 - 8)

How You Were Born by Joanna Cole. Photographs by Margaret Miller. Morrow Junior Books, 1993. A clear and helpful book about conception, fetal development and birth is illustrated with color photographs of parents and children from many racial backgrounds. The 1984 edition with same text and black and white photos by Hella Hammid and others is also still available in paperback and has a lovely breastfeeding illustration. (ages 3 - 11)

Stories That Include Breastfeeding

The World Is Full of Babies! by Mick Manning and Brita Granström. Delacorte Press, 1996. With humorous, engaging text and bright, attractive illustrations, the authors explain how human and animal babies grow and develop. An East Asian mother is shown nursing her baby. (ages 2 - 6)

Look What I See! Where Can I Be? In the Neighborhood by Dia L. Michels. Photographs by Michael J. N. Bowles. Platypus Media, LLC, 2001. Clues help children to guess where the baby wakes up as a busy family explores a multicultural urban neighborhood. The baby is carried in a sling, a front pack, a back pack, a stroller, and a wagon. The last picture shows the mother and baby nursing outdoors on the grounds of the U.S. Capitol. (ages 2 - 4)

Happy Birth Day! by Robie H. Harris. Illustrated by Michael Emberley. Candlewick Press, 1996. A mother tells her child about her hospital birth and first day of life. Large, beautiful illustrations capture the essence of a newborn baby breastfeeding and falling asleep cuddled up with both parents. (ages 3 - 8)

Only the Cat Saw by Ashley Wolff. Originally published in 1982. Walker and Company, 1996. Softcover. In this colorful picture book the cat sees all the details in a typical 24 hour day in the life of a busy farm family. The mother is shown breastfeeding the baby in a rocking chair at dawn. (ages 3 - 8)

The Best Gifts by Marsha Forchuk Skrypuch. Illustrated by Halina Below. Fitzhenry & Whiteside, 1998. Growing up from infancy to adulthood, Sara receives the most important gifts from her parents (including breastfeeding, time, love and caring) and passes them on to her own baby son. (ages 4 - 8)

Over the Green Hills by Rachel Isadora. Greenwillow, 1992. A young boy in the Transkei, on the east coast of South Africa, accompanies his mother on a long walk to visit Grandma Zindzi in another village. Baby sister Noma is carried wrapped close on her mother's back. They make several nursing stops, and this older baby is shown breastfeeding in one picture. (ages 4 - 8)

A Teeny Tiny Baby by Amy Schwartz. Orchard Books, 1994. Reissued in 2006. This first baby is center of attention in his family. Although Dad is shown feeding a bottle in one illustration, Mother is nursing in eight other pictures. Baby sleeps between his parents in a family bed and is carried in a sling by his father. (ages 3 and up)
APPENDIX  Additional Resources

Step 2
Establish a supportive breastfeeding policy and require all staff be aware of and follow the policy.

- www.bfmed.org/ace-files/protocol/milkstorage_ABM.pdf
- www.cdc.gov/breastfeeding/recommendations/handling_breastmilk.htm

Step 3
Establish a supportive worksite policy for staff members who are breastfeeding.

U.S. Department of Health and Human Services

Wisconsin Department of Health Services:
http://dhs.wisconsin.gov/health/Nutrition/Breastfeeding/bffriendlycomm.htm

Building Breastfeeding Friendly Communities in Wisconsin — Worksite Information

- Breastfeeding: A Common Sense Solution To Improve Your Company’s Bottom Line http://dhs.wisconsin.gov/health/Nutrition/Breastfeeding/BF_FriendlyComm/BFCommonSenseSolution.pdf provides information on the importance of supporting breastfeeding in the workplace, including tips for employers to support their breastfeeding employees.

- Sample Worksite Breastfeeding Policy http://dhs.wisconsin.gov/health/Nutrition/Breastfeeding/BF_FriendlyComm/SampleWorksiteBFPolicy.pdf can be easily adapted to most worksites.

- Breastfeeding After Returning to Work or School http://dhs.wisconsin.gov/health/Nutrition/Breastfeeding/BF_FriendlyComm/BFAfterReturningtoWork.pdf provides information for the breastfeeding women returning to work or school.

- CD: “Creating a Breastfeeding Friendly Workplace” available from Wisconsin Division of Public Health: Kate Pederson, MPH, RD, CD, CLS. 1 W. Wilson Street, PO Box 2659, Madison, WI 53701-2659, 608.267.9186 Fax: 266.3125, email: kathryn.pederson@wisconsin.gov

Centers for Disease Control and Prevention

United States Breastfeeding Committee

Step 5
Create a culturally appropriate breastfeeding friendly environment.

Posters
- www.dsf.health.state.pa.us/health/cwp/view.asp?A=179&Q=247761
- www.infactcanada.ca/mall/Posters_Pin_Up.ASP
- www.acclaimimages.com/search_terms/breast_feeding.html
- www.nursingbabys.com

Calendar
- www.babymilkaction.org/shop/calendarlatest.html

Posters plus more
- brochures, DVDs, various multicultural items for sale
  - www.dshs.state.tx.us/wichd/WICCatalog/BreastfeedingPromotion.pdf

Step 6
Inform expectant and new families and visitors about your center’s breastfeeding friendly policies.

- A Well-Kept Secret- Breastfeeding’s Benefits to Mothers
  www.lalecheleague.org/NB/NBJulAug01p124.html
- Benefits of Breastfeeding

- Breast Milk
- Breast Milk Associated With Greater Mental Development in Preterm Infants, Fewer Re-hospitalizations
- www.cdc.gov/breastfeeding
- Breastfeeding and Maternal and Infant Health Outcomes in Developed Countries
  www.ahrq.gov/clinic/tp/brfouttp.htm
- Breastfeeding vs. Formula Feeding
  www.kidshealth.org/parent/food/infants/breast_bottle_feeding.html
- Can Breastfeeding Prevent Illnesses?
  www.lalecheleague.org/FAQ/prevention.html
- Feeding Your Newborn
  www.kidshealth.org/parent/food/infants/feednewborn.html
- Got Mom...
  www.gotmom.org

Step 7
Stimulate participatory learning experiences with the children, related to breastfeeding.

Toys
- Breastfeeding doll: Available for order at www.global-breastfeeding.org/breastfeeding_dolls
Books

- See Appendix B: Children’s Books, page 36.

Visual / Website Resources

- “Sesame Street” (1977): “Buffy Nurses Cody” Folksinger Buffy Saint-Marie nurses her son Dakota “Cody” Starblanket. http://youtube.com/watch?v=g3DWRhfNm4c

- Mr. Rogers Talks about Food (Program #1536 on “Mr. Rogers’ Neighborhood”) This program is usually repeated in the weeks before Thanksgiving each year and could be taped for later viewing. Check local listings.

- Activity and learning curriculum from the New York State Department of Health Breastfeeding Education Activity Package (kindergarten): www.health.state.ny.us/community/pregnancy/breastfeeding/levelk.htm

- For additional age/grade level activities and learning curriculum from the New York Department of Health: www.health.state.ny.us/community/pregnancy/breastfeeding/main.htm

- Texas Department of State Health Services — WIC Kids Stuff: activity books, coloring pages, games, books and videos. www.dshs.state.tx.us/wichd/bf/kids.shtm

Step 8
Provide a comfortable place for mothers to breastfeed or pump their milk in privacy, if desired. Educate families and staff that a mother may breastfeed her child wherever they have a legal right to be.

Step 9
Establish and maintain connections with your local breastfeeding coalition or other community resources.

- African American Breastfeeding Alliance of Dane County: 608.243.0377, email: hbarrettbridges@publichealthmdc.com

- African American Breastfeeding Network of Milwaukee: 414.264.3441, email: aabn@ymail.com

- La Leche League International: www.lalecheleague.org. Click on “Find local support”, select “United States (English)” and then “Wisconsin” to get to current Wisconsin groups.

- Wisconsin Association of Lactation Consultants (WALC): www.walc.net

- International Lactation Consultant Association: Professional organization for lactation consultants. 1500 Sunday Drive, Suite 102, Raleigh, NC 27607. 919.787.5181, fax 919.787.4916, email: ilca@erols.com, website: www.ilca.org. The website allows you to “find a lactation consultant near you.”
La Leche League is an international organization of mother-to-mother support for breastfeeding. Local La Leche League meeting schedules may be found through contacting local leaders. To find out the nearest local groups, look at the website at www.llli.org/. Look at the section called “Find local support” and follow the directions to find the nearest groups. Printed copies of local meeting schedules and locations should be included in the file. If these are not available, contact information for local leaders should be included. At the same website, click on “Breastfeeding Info” to find information on a wide variety of breastfeeding topics.

The Wisconsin Breastfeeding Resource Directory can be found at www.dhs.state.wi.us/health/Nutrition/Breastfeeding/pph40148.pdf. Developed by the Wisconsin Breastfeeding Coalition, the Directory is intended to provide a listing of local Wisconsin referral sources. Pertinent local information can be copied and put in the Child Care Center resource file.

The Breastfeeding Home Page for the Wisconsin Department of Health Services can be found at: www.dhs.state.wi.us/health/Nutrition/Breastfeeding/index.htm

Local Wisconsin breastfeeding coalitions can be found listed at www.dhs.state.wi.us/health/Nutrition/Breastfeeding/LocalBFCoalitions.pdf

Books for Working Breastfeeding Mothers

Websites for Working Breastfeeding Mothers

- www.lalecheleague.org — La leche league’s general breastfeeding website.

- www.llli.org/NB/NBworking.html — specific topics on working and breastfeeding.

Pumps and Pumping

- U.S. Food & Drug Administration Breast Pump Website www.fda.gov/cdrh/breastpumps/index.html (Information and tips on pumps, pumping and milk storage).

- WorkAndPump.com www.workandpump.com Website support for working mothers by Kirsten Berggren, PhD, CLC.

- The Academy of Breastfeeding Medicine has a helpful protocol on the storage of human milk. It can be read and downloaded at www.bfmed.org/ace-files/protocol/milkstorage_ABM.pdf
General Breastfeeding Websites

- **Breastfeeding Links**. Multiple links with extensive breastfeeding information on many topics on line. www.geocities.com/breastfeedinglinks

- **Lactation Assistance Services**. Local Madison area breastfeeding website of Adria Cannon and Ruth Sweet. http://madisonbreastfeedinghelp.wordpress.com

- **Diane Wiessinger’s breastfeeding resources** web page: www.wiessinger.baka.com/bfing. Many wonderful handouts, wise thoughts on many aspects of helping breastfeeding mothers and babies.

- **Kellymom**. www.kellymom.com General breastfeeding information and resources website of Kelly Bonyata, IBCLC. To calculate financial costs of not breastfeeding, see www.kellymom.com/bf/start/prepare/bfcostbenefits.html

- **Breastfeeding on line**, Cindy Curtis, RN, IBCLC breastfeeding website. www.breastfeedingonline.com Lots of resources and information on breastfeeding, including Dr. Jack Newman handouts and WHO code of marketing of breast milk substitutes.

- **Dr. Jack Newman and Edith Kernerman On-Line Breastfeeding Resource site**: www.drjacknewman.com

- **Bright Future Lactation Resource Centre, Ltd**. Website of Linda Smith, IBCLC. Resources, guidance for handling breastfeeding challenges, teaching tips. www.bflrc.com

- **Pro-Mom**. A nonprofit organization dedicated to increasing public awareness and acceptance of breastfeeding. Many helpful articles, information and links. www.promom.org

- **Breastfeeding.com** www.breastfeeding.com Video clips, breastfeeding information.

- **Massachusetts Breastfeeding Coalition** www.massbfc.org News of breastfeeding issues, handouts, protocols, resources for health care staff. Nice handout on skin-to-skin contact.

- **Breastfeeding Coalition of Washington State**: www.hmhbwa.org/forprof/BCW/home.htm Brochures in several languages, newsletter “Breastfeeding Matters”.

- **Amy’s Babies**. Amy Spangler’s website of educational resources, which includes “Feeding Times,” a free, quarterly, email newsletter focusing on specific breastfeeding topics. http://amysbabies.com

- **Breastfeeding Legislation**: A 50 state summary of breastfeeding laws can be found at: www.ncsl.org/programs/health/breast50.htm and www.llli.org/Law/LawBills.html

10 Steps to Breastfeeding Friendly Child Care Centers

1. Designate an individual or group who is responsible for development and implementation of the 10 steps.

2. Establish a supportive breastfeeding policy and require that all staff be aware of and follow the policy.

3. Establish a supportive worksite policy for staff members who are breastfeeding.

4. Train all center staff to carry out breastfeeding promotion and support activities.

5. Create a culturally appropriate breastfeeding friendly environment.

6. Inform expectant parents, new families and visitors about your center’s breastfeeding friendly policies.

7. Stimulate participatory learning experiences with the children related to breastfeeding.

8. Provide a comfortable place for mothers to breastfeed or pump their milk in privacy, if desired. Educate families and staff that a mother may breastfeed her child wherever they have a legal right to be.

9. Establish and maintain connections with your local breastfeeding coalition or other community resources.

10. Maintain an updated resource file of community breastfeeding services and resources kept in an accessible area for families.
