

Montana Department of Public Health and Human Services The Community Services Block Grant Program

CSBG 800-6 Equipment Disposition

Equipment purchased with CSBG funds no longer needed by the sub grantee that initially purchased it will be offered to other Montana CSBG sub grantees at no charge. If no other CSBG sub grantee in the state accepts the equipment, the sub grantee that initially purchased the equipment shall sell it at fair market value. All proceeds from the sale of equipment purchased with CSBG funds will be reinvested into the CSBG Program.

If the agency wishes to sell the equipment a bid will be put out to prospective bidders. The bidder with the highest bid will be awarded the equipment.

An HRDC will send the email for permission to dispose of their equipment to their respective monitor.
