## Leptospirosis Case Report Form

Visit [www.cdc.gov/leptospirosis](http://www.cdc.gov/leptospirosis) for a fillable PDF version of this Case Report Form.

### Demographics

<table>
<thead>
<tr>
<th>State of Residence</th>
<th>Zip Code</th>
<th>County of Residence</th>
<th>Sex</th>
<th>Date of Birth</th>
<th>Age</th>
<th>Race</th>
<th>Ethnicity</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Alaska Native or American Indian
- Black/African American
- Native Hawaiian or Other Pacific Islander
- White
- Not Specified
- Hispanic or Latino
- Not Hispanic or Latino
- Unknown

### Clinical Presentation

Was the patient symptomatic? [ ] If yes, Date of Onset

Select all clinical manifestations the patient experienced:

- [ ] Fever
- [ ] Conjunctival suffusion
- [ ] Jaundice
- [ ] Pulmonary complications
- [ ] Gastrointestinal involvement
- [ ] Myalgia
- [ ] Thrombocytopenia
- [ ] Hepatitis
- [ ] Cardiac involvement
- [ ] Rash (petechial or maculopapular)
- [ ] Headache
- [ ] Aseptic meningitis
- [ ] Hemorrhage
- [ ] Renal insufficiency/failure
- [ ] Other, specify:

### Outcome

Was the patient hospitalized? [ ] If yes, date admitted

Was antimicrobial treatment given for this infection? [ ] If yes, date started

Which drugs (select all that apply)?

- [ ] Doxycycline
- [ ] Penicillin
- [ ] Other, specify:

Clinical Outcome

Date of discharge

Date of death

### Laboratory Results

<table>
<thead>
<tr>
<th>Culture</th>
<th>Specimen Type</th>
<th>Collection date</th>
<th>Positive</th>
<th>Negative</th>
<th>Not done</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCR</td>
<td>Specimen Type</td>
<td>Collection date</td>
<td>Positive</td>
<td>Negative</td>
<td>Not done</td>
</tr>
</tbody>
</table>

MAT (≥7 days)

<table>
<thead>
<tr>
<th>Date</th>
<th>Titer</th>
<th>Acute (highest titer)</th>
</tr>
</thead>
</table>

Convalescent (≥ 2 weeks later, highest titer)

<table>
<thead>
<tr>
<th>Date</th>
<th>Titer</th>
<th>4-fold rise in titer</th>
<th>Single titer ≥ 800</th>
</tr>
</thead>
</table>

Leptospira serovar^ identified by PFGE or MLST or other molecular typing method

Other test

Choose ELISA

Positive

Negative

Other test

Choose ELISA

Positive

Negative

Public reporting burden of this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-0009).
### Leptospirosis Case Report Form

Visit [www.cdc.gov/leptospirosis](https://www.cdc.gov/leptospirosis) for a fillable PDF version of this Case Report

#### Exposures in 30 days prior to illness onset, specify if the patient had:

<table>
<thead>
<tr>
<th>Contact with animals (select all that apply)</th>
<th>Farm livestock</th>
<th>Wildlife</th>
<th>Rodents</th>
<th>Dogs</th>
<th>Other</th>
<th>No known contact</th>
<th>Unknown</th>
</tr>
</thead>
<tbody>
<tr>
<td>Specify animal:</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Where did animal contact(s) occur (eg, at home)?</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Contact with water (select all that apply)</th>
<th>Standing fresh water (eg, lake, pond)</th>
<th>River/stream</th>
<th>Wet soil</th>
<th>Flood water, run-off</th>
<th>Sewage</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Standing fresh water (eg, lake, pond)</td>
<td>River/stream</td>
<td>Wet soil</td>
<td>Flood water, run-off</td>
<td>Sewage</td>
</tr>
<tr>
<td></td>
<td>Other</td>
<td>No known contact</td>
<td>Unknown</td>
<td>Specify water:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Where did water contact(s) occur (specify location)?</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### If the patient had contact with animals or water, select the type of contact:

<table>
<thead>
<tr>
<th>Occupational</th>
<th>Farmer (Land)</th>
<th>Farmer (Animals)</th>
<th>Fish worker</th>
<th>Unknown</th>
</tr>
</thead>
<tbody>
<tr>
<td>Other</td>
<td>If Other, Specify:</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Avocational</th>
<th>Gardening</th>
<th>Pet Ownership</th>
<th>Unknown</th>
</tr>
</thead>
<tbody>
<tr>
<td>Other</td>
<td>If Other, Specify:</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Recreational</th>
<th>Swimming</th>
<th>Boating</th>
<th>Outdoor competition</th>
<th>Camping/hiking</th>
<th>Hunting</th>
<th>Unknown</th>
</tr>
</thead>
<tbody>
<tr>
<td>Other</td>
<td>If Other, Specify:</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

| Other (Specify): |          |           |          |                     |

#### In the 30 days prior to illness onset,

- Did the patient stay in housing with evidence of rodents?
- Did the patient stay in a rural area?
- Did the patient travel outside of county, state, or country?
- Travel destination(s)
- Was there heavy rainfall near the patient's place of residence, work site, activities, or travel?
- Was there flooding near the patient's place of residence, work site, activities, or travel?
- Did the patient have similar exposures as a contact diagnosed with leptospirosis in the 30 day period?

- Has the patient ever had leptospirosis?
- Is this patient part of an outbreak?
  - If yes, describe outbreak

#### Classify case based on the CSTE/CDC case definition (see criteria below)

- Confirmed
- Probable

### Investigators Name

#### Comments

**Confirmed:** Isolation of *Leptospira* from a clinical specimen, OR fourfold or greater increase in *Leptospira* agglutination titer between acute- and convalescent-phase serum specimens studied at the same laboratory, OR demonstration of *Leptospira* in tissue by direct immunofluorescence, OR *Leptospira* agglutination titer of ≥ 800 by Microscopic Agglutination Test (MAT) in one or more serum specimens, OR detection of pathogenic *Leptospira* DNA (e.g., by PCR) from a clinical specimen.

**Probable:** A clinically compatible case with involvement in an exposure event (e.g., adventure race, triathlon, flooding) with known associated cases, OR *Leptospira* agglutination titer of ≥ 200 but < 800 by Microscopic Agglutination Test (MAT) in one or more serum specimens, OR demonstration of anti-*Leptospira* antibodies in a clinical specimen by indirect immunofluorescence, OR demonstration of *Leptospira* in a clinical specimen by darkfield microscopy, OR detection of IgM antibodies against *Leptospira* in an in acute phase serum specimen, but without confirmatory laboratory evidence of *Leptospira* infection.
