In Montana, tattoo artists are required to obtain a license prior to offering services. Permanent cosmetics and microblading are considered tattooing and require a license.

36% of Americans between age 18-29 have at least one tattoo.

168 number of tattoo establishments licensed and inspected in Montana.

17% of those who have tattoos regret them.

That guy advertising on Facebook may be cheap, but what is his work going to look like?

Just one more tattoo and I’m done....

$1.65 billion dollars is spent every year on tattoos in the United States.

Having a tattoo license in the state of Montana does not mean the the license holder is a skilled artist. It only shows that they are meeting public health requirements. Buyer beware. Ask your artist to see some of their work prior to letting them tattoo you.
