

Design Your Own Project Checklist

Project Goal:

- **Individual Grantees:** Design a project that will address chronic disease issues in your school or school district, submit the project to the Montana School Health Program for approval, carry out project, and complete an outcome report.
- **Group Grantees:** Design a project with a group of colleagues that will address chronic disease issues in your school or school district, submit the project to the Montana School Health Program for approval, carry out project, and complete an outcome report.
- Preparation:
 - Research a project related to chronic disease in schools and draft a proposal
 - Contact Montana School Health Program staff for project approval

The Options Are Endless...but here are some ideas

- The EPA School Flag Program
- Flu Clinics for Children with asthma and other chronic conditions
- Improve your school absenteeism: Implement a chronic disease tracking system, conduct a review of chronic disease related absences to identify students in need, improve medical services for students w/chronic diseases
- Integrate chronic disease education into your district's curriculum
- Conduct an environmental health or indoor air quality assessment
- Create a support group for students with similar chronic diseases

Report Results:

- You will receive an outcome report designed specifically for your project within two weeks of your notification of award. Complete the outcomes report form and return it to the School Health Program by May 31, 2021.
