

## Vaping and Asthma Script

**Young Man:** Hey, what's up? Wait, you vape? You're usually such a control freak.

**Friend:** I'm addicted.

**Young Man:** I used to smoke and vape... and the only thing in control was the nicotine.  
And you have asthma.

**Friend:** Yeah, but mine's just mild.

**Young Man:** Doesn't matter, it can still trigger an attack.

**Friend:** I need to quit.

**Young Man:** Quitting is the best way to keep your asthma under control.  
Health in the (406) my friend... it's good... and it's getting better.
