

Doug Quits Smoking for Son Script

“Doug QL”(:30) TV

Doug: I quit smoking for the simple reason my son had quit. And I didn't like that he had started anyway. Because I was smoking, he kind of followed in my footsteps. He reversed it. He quit smoking, and I decided that I needed to quit smoking. And it's actually kind of funny. I can afford to do things that I dreamed about doing – because I'm not looking for my next cigarette. I've been able to buy a bike, get back into riding... and work out... I do a lot more hiking. I don't just sit at home smoking cigarettes... thinking about it. I'm out doing it. My son, I says... you know... you set the example. Thank you.
