

Lou- Closet Smoker Script

“Lou QL” (:30) TV

Lou: Growing up, everybody in my family smoked. And yet, I couldn't keep myself from doing that. And I was ashamed. My family didn't know. My wife... my children didn't know that I was a closet smoker. I'd come up here to the mountains, and right there in my backpack would be cigarettes. I knew the only way I was going to quit... is if I was honest with myself. That I didn't want something else to be in charge of my life. I can say I haven't had a cigarette for five years. Tobacco doesn't have a grip on me anymore.
