

Rodeo: Brody Learns to Live Tobacco-Free Script

Brody:

I got into rodeo through my grandfather and my dad. My grandpa was a stock contractor in the state of Montana. My grandfather was a positive influence on me always, and he always worked hard. And he was just the person that I always look up to still. My grandfather smoked all his life, and he developed COPD and he has to be on oxygen now. It just teaches me that I've got to be tobacco-free and I support Tobacco-Free Rodeo.
