

Nicotine Addiction Stole Teanna's Grandfather: Rodeo Script

Teanna:

When I was six years old, my grandpa had passed away of lung cancer because of his nicotine addiction.

And I feel like his addiction to the tobacco stole my memories all away from, from being a child.

I just, didn't get the chance to really know him very well.

I want to be the person that stands up and stops the tobacco use so people can have more memories with their friends and family, unlike me.
