

Theresa and Lung Disease Script

“Theresa /Loss QL” (:30) TV

Theresa: This is my leash, and this is my life. I go nowhere without the oxygen. If I run out of oxygen at all... for any length of time... panic sets in. I lost a lot of freedom. I want to go swimming. I want to go walking down the street. A lot of things I'd love to do with my kids and grandkids. I just can't do because this is literally my life. Every decision you make... you will base on how much energy and how much oxygen it takes. Your life is no longer your own.
