

Hemoglobin/Hematocrit Timing Chart

| Category | Age | Certification | Mid-Certification | Follow-Up Appointment |
|----------|---------------|---------------|------------------------------|------------------------------|
| Infant | 9-12 months** | Yes | N/A | 9-12 months** |
| Child | 1 year | *Yes | Yes | No |
| Child | 2-5 years | Yes | Only if low at certification | No |
| Woman | Any | Yes | No | Only if low at certification |

*If hemoglobin/hematocrit are collected between 9-12 months, the certification check at 1 year may be skipped

** Only 1 hemoglobin/hematocrit needs to be collected between 9-12 months, whether that is at the 9 month “follow up” apt. or if an infant is certified during that time period.
