4. STATEMENT OF REASONABLE NECESSITY

The Department of Public Health and Human Services (department) administers the Montana Medicaid and non-Medicaid program to provide health care to Montana’s qualified low income, elderly, and disabled residents. Medicaid is a public assistance program paid for with state and federal funds appropriated to pay health care providers for the covered medical services they deliver to Medicaid members.

Pursuant to 53-6-113, MCA, the Montana Legislature has directed the department to use the administrative rulemaking process to establish rates of reimbursement for covered medical services provided to Medicaid members by Medicaid providers. The department proposes these rule amendments to establish Medicaid rates of reimbursement which are necessary for the purposes of the Medicaid program. In establishing the proposed rates of reimbursement, the department considered as primary factors the availability of funds appropriated by the Montana Legislature during the 2019 regular legislative session, the actual cost of services, and the availability of services.

The purpose of the proposed rule amendments is to:
(1) incorporate legislatively appropriated provider rate increases with an effective date of July 1, 2020;
(2) incorporate the July 1, 2020 RBRVS changes;
(3) incorporate the physician conversion factor as provided in 53-6-125, MCA;
(4) revise fee schedules;
(5) update federal register references for the RBRVS and Outpatient
Prospective Payment System payment methodologies; and (6) update the outpatient cost-to-charge ratio.

Proposed Provider Rate Increases

The department is proposing provider rate increases effective July 1, 2020, for most Medicaid and non-Medicaid provider rates in accordance with the funding appropriated by the Montana Legislature during the 2019 regular session.

This rule will implement the legislatively appropriated provider rate increases for the Big Sky Waiver program, effective July 1, 2020. This fee increase will include a 1.83% increase in provider rates for the Big Sky Waiver services with the exception of transportation miles and assisted living facility residential habilitation services. The rate for transportation miles has been set in accordance with the State Plan Medicaid rate. For both the Big Sky Waiver and the Severe and Disabling Mental Illness waiver, the rate for assisted living facility residential habilitation services remains unchanged from the October 1, 2019, rate increase provided under MAR Notice No. 37-898.

Resource-Based Relative Value Scale (RBRVS) Methodology Summary

Many Montana Medicaid providers' rates are established through the resource-based relative value scale (RBRVS) model. RBRVS is used nationwide by most health plans, including Medicare and Medicaid to establish Montana Medicaid provider rates. The relative value unit component of RBRVS is revised annually by the Centers for Medicare and Medicaid Services (CMS) and the American Medical Association (AMA). The department annually proposes to amend ARM 37.85.105 to adopt the recently revised relative value units (RVUs). An RVU is a numerical value assigned to each medical procedure. RVUs are based on physician work, practice expense, and malpractice insurance expenses, and RVUs express the relative effort and expense expended to provide one procedure compared with another. In the annual revision of RVUs, CMS and the AMA add RVUs for new procedures and increase or decrease RVUs of particular procedures, depending on the factors listed above.

"Conversion factor" (CF) means a dollar amount by which RVUs are multiplied to establish the RBRVS fee for a service. The department annually calculates conversion factors for allied services, mental health services, and anesthesia services taking into consideration the changes to RVUs and appropriations.

For allied health services, mental health services, and anesthesia services, the conversion factors were calculated to provide for an overall increase of 1.83%. In addition, the optometric rate of reimbursement was increased to 117.50% to increase the optical service reimbursement by 1.83%.

A BCBA and BCBA-D services policy adjustor of 105% is proposed to increase reimbursement for autism state plan services by 1.83%.
Physician Conversion Factor

Section 53-6-125, MCA, directs the department to increase the physician's conversion factor by the consumer price index (CPI) for medical care for the previous year.

For the fiscal year beginning July 1, 2020, 53-6-125, MCA, directs the department to reduce general fund expenditures for physicians by $400,000 to fund the Health Information Exchange. After applying the federal match, the total expenditure reduction calculated to $1,150,086.

The changes to the physician conversion factor were completed in two steps, first applying the annual CPI increase and then applying the reduction associated with HB 669. These changes were applied multiplicatively resulting in a proposed physician conversion factor of $39.51.

Fee Schedules

The department is proposing the adoption of fee schedules effective July 1, 2020. The fee schedules incorporate changes due to the proposed amendments within this rulemaking.

The department has posted proposed fee schedules at http://medicaidprovider.mt.gov/proposeddfs.

Federal Register Updates

Effective July 1, 2020, the department is proposing to adopt the January 1, 2020, federal register references for the RBRVS and Outpatient Prospective Payment System reimbursement methodologies. These updates are necessary to incorporate the most up-to-date changes made by CMS.

Outpatient Cost-to-Charge Ratio

The Outpatient Cost-to-Charge ratio is proposed to increase to 48% from 37.50%. This percentage is calculated utilizing the average cost-to-charge ratio from the Cost Reports for Prospective Payment System Hospitals.

The proposed rulemaking is estimated to affect 237,314 Medicaid members. In addition, it will impact the provider populations outlined in the tables above.

5. Concerned persons may submit their data, views, or arguments either orally or in writing at the hearing. Written data, views, or arguments may also be submitted to: Heidi Clark, Department of Public Health and Human Services, Office.
of Legal Affairs, P.O. Box 4210, Helena, Montana, 59604-4210; fax (406) 444-9744; or e-mail dphhslegal@mt.gov, and must be received no later than 5:00 p.m., June 12, 2020.

6. The Office of Legal Affairs, Department of Public Health and Human Services, has been designated to preside over and conduct this hearing.

7. The department maintains a list of interested persons who wish to receive notices of rulemaking actions proposed by this agency. Persons who wish to have their name added to the list shall make a written request that includes the name, e-mail, and mailing address of the person to receive notices and specifies for which program the person wishes to receive notices. Notices will be sent by e-mail unless a mailing preference is noted in the request. Such written request may be mailed or delivered to the contact person in 5 above or may be made by completing a request form at any rules hearing held by the department.

8. The bill sponsor contact requirements of 2-4-302, MCA, do not apply.

9. With regard to the requirements of 2-4-111, MCA, the department has determined that the amendment of the above-referenced rules will significantly and directly impact small businesses.

10. Section 53-6-196, MCA, requires that the department, when adopting by rule proposed changes in the delivery of services funded with Medicaid monies, make a determination of whether the principal reasons and rationale for the rule can be assessed by performance-based measures and, if the requirement is applicable, the method of such measurement. The statute provides that the requirement is not applicable if the rule is for the implementation of rate increases or of federal law.

The department has determined that the proposed program changes presented in this notice are not appropriate for performance-based measurement and therefore are not subject to the performance-based measures requirement of 53-6-196, MCA.
