History of the HELP Waiver

DEPARTMENT OF
PUBLIC HEALTH &
HUMAN SERVICES

History/Context

- Initial HELP Waiver was **implemented in 2015 as Medicaid expansion** with Montana specific program features including voluntary workforce program, 12-month continuous eligibility, premiums, and copayments.
- In 2019, the state passed a Medicaid reform bill that **required community engagement for Medicaid expansion population**. It was not implemented due to changing policies at the federal level.
- The initial HELP waiver evolved over time as federal authorities and allowable program features changed. Eventually, the waiver expired in December 2022.
- The new HELP Waiver is designed to **align with Montana state law** to the greatest extent possible **while also meeting new federal statutory requirements (H.R. 1)**.
