

When we educate clinicians, we save lives

Curriculum in IDD Healthcare eLearn Course

IntellectAbility

The Curriculum in IDD Healthcare eLearn course was designed, created, and delivered by a physician for physicians and other clinicians.

This eLearn course teaches the fundamentals of IDD healthcare, providing participants with pertinent, practical information regarding people with disabilities that can improve outcomes, reduce suffering, and prevent unnecessary death.

 **Duration: 4.5 hours**

 **For physicians, nurse practitioners, nurses and physician assistants**

**A number of seats are being held for students actively studying in the health and human services field and/or medical field.*

 **Earn 5 CME/6 CEU Credits**

**Completion of a short course evaluation is required to receive the CMEs/CEUs*

Course Modules

1. IDD Basics: Then, Now and Next
2. Healthcare Basics in IDD
3. Common Behavioral Presentation of Medical Conditions
4. Dual Diagnosis in IDD
5. Effective Communication for IDD Healthcare
6. Bringing it All Together: Case Studies in IDD Healthcare

To be eligible to participate in this training, participants must:

- Be licensed in the state of Montana as a healthcare professional or behavioral health professional; or
- A Montana college or university student enrolled in a healthcare field.

Developed and delivered by:

Dr. Craig Escudé who has over 20 years of clinical experience in treating people with severe and profound levels of IDD and extensive experience in training hundreds of clinicians, case managers, social workers, direct support professionals and others who work in this field. He is also one of a handful of Fellows of the American Academy of Developmental Medicine.

“[I liked] The calm and well-paced presentation, the emphasis on nonverbal individuals, the clear affection for our population and their families. Everything was excellent.”

- Victoria Morrison, MS CCC-SLP
Lexington ARC, NY
