**HEALING AND ENDING ADDICTION THROUGH RECOVERY AND TREATMENT**

The Behavioral Health and Developmental Disabilities (BHDD) Division has developed this section of the Medicaid Services Provider Manual for Substance Use Disorder and Adult Mental Health to provide information pertaining to programs developed under the HEART Waiver Authority. This section of the manual regards specific requirements pertaining to all Medicaid provider types participating in the provision of these services, including Federally Qualified Health Centers (FQHC), Rural Health Centers (RHC), Urban Indian Health Centers, and Tribal FQHC. Reimbursement for services is provided in accordance with their respective provider type reimbursement rules.

This manual is adopted and incorporated into the Administrative Rules of Montana (ARM) 37.27.902 and ARM 37.88.101

A provider must verify the individual is a Medicaid member. Medicaid eligibility can be verified at: <https://mtaccesstohealth.portal.conduent.com/mt/general/home.do>

A member who is court ordered into services, or is otherwise required to receive services, must still meet the eligibility requirements for prior authorization and medical necessity criteria for Montana Medicaid reimbursement.

For information about how to submit claims, please refer to:

<https://medicaidprovider.mt.gov/> or Provider Relations at: 1.800.624.3958 or 406.442.1837.
