## Consolidated Appropriations Act

The Behavioral Health and Developmental Disabilities (BHDD) Division has developed this section of the Medicaid Services Provider Manual for Substance Use Disorder and Adult Mental Health to provide information pertaining to programs developed under Section 5121 of the Consolidated Appropriations Act (CAA, 2023). This section of the manual regards specific requirements pertaining to all Medicaid provider types participating in the provision of these services, including Department of Corrections (DOC), county jails, tribal jails, regional detention centers, and contracted correctional facilities and their implementation partners, such as community-based providers. Reimbursement for services is provided in accordance with the Medicaid Mental Health services for individuals 18 years of age and older, provider fee schedule.

This manual is adopted and incorporated into the Administrative Rules of Montana (ARM) 37.27.902 and ARM 37.88.101

A provider must verify the individual is a Medicaid member. Medicaid eligibility can be verified at: <https://mtaccesstohealth.portal.conduent.com/mt/general/home.do>

A member who is court ordered into services, or is otherwise required to receive services, must still meet the eligibility requirements for prior authorization and medical necessity criteria for Montana Medicaid reimbursement.

For information about how to submit claims, please refer to:

<https://medicaidprovider.mt.gov/> or Provider Relations at: 1.800.624.3958 or 406.442.1837.
