

# Maternal Health Leadership Council—Quarterly Meeting

**Date:** December 16, 2024

**Time:** 2:00pm MT

**Location:** Microsoft Teams

## Meeting Objectives:

1. Share information on the new Maternal Health Innovation (MHI) funding opportunity.
2. Present new MHLC structure proposal and solicit feedback from partners.

## Agenda

| Time   | Discussion Topics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Person Responsible | Action Items |
|--------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|--------------|
| 2:00pm | <b>Welcome, Overview, and Introductions</b><br><br>-MLHC members will share introductions, including name, position, organization, and service populations.                                                                                                                                                                                                                                                                                                                                        | DPHHS              |              |
| 2:25pm | <b>MOMS Program Updates</b><br><br>-MHI Grant Overview Presentation                                                                                                                                                                                                                                                                                                                                                                                                                                | DPHHS              |              |
| 2:45pm | <b>Break</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | All                |              |
| 2:50pm | <b>Proposed MHLC Structure Feedback and Discussion</b><br><br><i>MOMS is interested in expanding the scope of the MHLC to a statewide maternal health consortium. Utilizing the <a href="#">Collective Impact model</a>, the MHLC will seek to engage, coordinate, and evaluate global impact of maternal health initiatives in Montana.</i><br><br><i>Prior to expanding the consortium, MOMS aims to share information and gather feedback from stakeholders on the proposal and next steps.</i> | DPHHS              |              |
| 3:55pm | <b>Wrap-Up and Next Steps</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | DPHHS              |              |

### **Parking Lot**

*Multi-sector workgroup meetings can spark innovation and collaboration. Members are encouraged to share ideas and feedback with the MOMS Program throughout the call. To uphold the objectives of the meeting, items may be placed within the “Parking Lot” for future exploration and discussion.*
