

The MT F2F PoP Series Presents:

Montana's Provider Rate Study – Why Participate?

Our Department of Public Health and Human Services is conducting a Provider Rate Study. This study will help them learn the costs of paying support staff, buying supplies, etc. Results directly affect Medicaid rates, like the amount you can pay staff – extremely important given the current worker shortage!

When?

Tuesday, May 17th, 7 pm (online)

Who should attend?

Anyone using waiver services (including self-direct) or other Medicaid-funded services such as personal care, Community First Choice, and mental health services. Case managers, therapists, and other professionals are also invited to attend.

Agenda

- What is the Provider Rate Study?
- How will it impact the pay I can offer staff?
- How can I participate and be heard?

Sign up

Deadline to register
May 17th by noon
