

Request for Evidence-Based Research Program/Policy/Practice Consideration and/or Modification

G. Evidence for Strategy/Evidence-based Program/policy/practice: Check one box only:

- Federal Registry** (it appears in a federal registry of Evidence-based programs
Registry: _____ Rating: _____)
- Peer Reviewed Journal** (it has been positively evaluated in a peer review journal)
Name of Journal: _____ URL Link Address: _____
- Promising Practice** (it does not meet any of the above definitions, but there is preliminary evidence of effectiveness available)
- No Evidence** (there is no evidence of this strategy's effectiveness available)
- Other:**

H. Measures and Sources (complete if not on a Federal Registry or in a Peer Reviewed Journal):

Sources of Data to Support Identified Risk/Protective Factor and/or Intervening Variables/Community Level Indicators:

Qualitative (Examples: Focus Groups):

Quantitative (Examples: MT Prevention Needs Assessment, Youth Risk Behavior Survey):

I. Community Engagement Process

Please provide documentation that demonstrates how your community identified the program as the best-fit for your community. (Coalition minutes showing the following process occurred with community members)

- a. Presented Data (i.e. data to support identified risk and protective factors)
- b. Analyzed data (qualitative and quantitative)
- c. Assessed Community Resources
- d. Assessed capacity
- e. List of all programs/policy/practice under consideration and why the one chosen was the best fit.

J. Relevance

How will addressing this need/gap serve as a foundation for improving the overall outcomes in your community?

Request for Evidence-Based Research Program/Policy/Practice Consideration and/or Modification

K. Community Buy-in and Estimated Costs

- a. What is the anticipated cost for this program/policy/practice (i.e. material, travel, training, etc.).
- b. Are you collaborating with other organizations to cover costs of this expense? Please briefly share those organizations and the role you/they will play in sustainability.
- c. Is there funding already available in the community? What is the plan for funding?
- d. What is the cost effectiveness? (i.e. cost of program versus long term cost savings with intervention)

L. Modification on Implementation of an Evidence-based Program/Policy/Practice? Please state why you feel it needs to be modified and how you came to this conclusion?

Define how the strategy will be modified.

M. If policy/practice is there a state law in regard to the policy/practice that you are submitting? If yes, please link the MCA here:
