Internal Controls:

To the maximum extent possible, it is expected that the organization:

- Separate responsibilities for receipt and custody of cash and other assets, maintaining accounting records on the assets; and authorizing transactions.
- In the case of payroll activities, the organization, where possible, should separate the timekeeping, payroll preparation, payroll approval, and payment functions.

Briefly describe the separation of responsibilities to provide an adequate system of checks and balances:

| Do the procedures for cash receipts and disbursements include the following safeguards? | Yes | No |
|---|------------|-----------|
| Receipts are promptly logged in, restrictively endorsed, and deposited in an insured bank account | | |
| Bank statements are promptly reconciled to the accounting records and are reconciled by someone other than the individuals handling cash, disbursements and maintaining accounting records. | | |
| All disbursements (except petty cash or Electronic Fund Transfer disbursements) are made by pre-numbered checks. | | |
| Supporting documents (e.g. purchase orders, invoices, etc.) accompany checks submitted for signature and are marked "paid" or otherwise prominently noted after payments are made. | | |
| Checks drawn to "cash" and advanced signing of checks are prohibited. | | |
| Are multiple signatures required on checks? | | |
