Confidentiality Sign-In Agreement for FICMMR Mortality Reviews Fetal, Infant, Child, & Maternal Mortality Review & Prevention Team (FICMMR)

While the FICMMR statute (MCA) 50-19-401 – 50-19-406, protects information obtained for a mortality review from disclosure under the public records law, it also includes provisions for a Civil Penalty or Misdemeanor should a confidentiality breach occur. FICMMR mortality reviews are closed meetings -- not open to the public. No information presented or discussed at a mortality review can be disclosed with non-FICMMR team members at any time.

As a member of the FICMMR County, Fetal, Infant, Child, and Maternal Mortality Review Team, I agree to honor and maintain the confidentiality of all records, reports, discussion, analysis, and decisions of the mortality review process. Thank you for your service and your cooperation on this important requirement.
