# VPN Information

The VPN Software application should be installed on your computer. If not, please contact us at 444-9500.

*To access the State of Montana VPN, complete the following steps:*

1. Cisco Secure Client is searchable in your programs list by pressing the start button, or click on this new system tray icon (highlighted below):

2. The Cisco Secure Client will pop-up. Click **Connect** and log in with your State ActiveDirectory (AD) account:

3. Click the **Group** drop down and choose **Multi-Factor** and log in with your State AD account. *Pro tip*: If you enter your password first, you will not have to race the RSA Clock!

4. Once it is connected, your computer is now on the State of Montana's network.

If you need further assistance:

•Call or email DPHHS Technology Services Center at 444-9500

•Check out the DPHHS Self-Service Portal
