

SETS Provider Portal Provider Users

Taking Action on Provider User Role Requests

Taking Action on a Provider's INITIAL Portal Role Request

All Provider Users must request access to the Provider Portal.

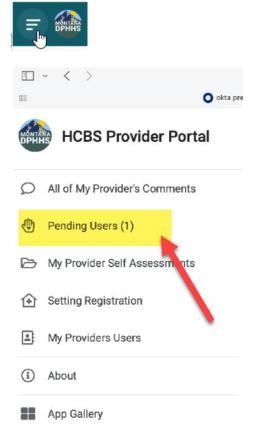

The <u>INITIAL</u> request (the first person requesting access) MUST be for a Provider Admin Role.

HCBS staff must take action on (approve or deny) this <u>INITIAL</u> Provider Admin Role request. The requester will receive an email notification indicating whether their request was approved or denied.

After this <u>INITIAL</u> Provider Admin access is approved, that person can and should manage any <u>SUBSEQUENT</u> portal role requests.

Taking Action on a Provider's SUBSEQUENT Portal Role Requests

1. Click the Pending Users list from the Main Menu on any page.

2. The Pending Users list displays all pending Provider user requests waiting for action.

3. Take action on (approve or deny) the request by clicking the Thumbs Up (approve) or Thumbs Down (deny) buttons.

4. The requester will receive an email notification indicating whether their request was approved or denied.

View List of All Provider Users

All Provider Users, in all statuses, can be viewed from the My Providers Users list from the Main Menu.

Removing a User from the Provider Portal

Contact HCBS staff if you need to remove a user from the Provider Portal.
