

AGED, BLIND, AND DISABLED MEDICAID 016

Table of Standards: Life Expectancy Table

Supersedes: MA 008 (07/01/2016)

Reference: Social Security Administration Statistical Table

Overview: Use the following tables to evaluate the length of time income, support, maintenance, or services can be expected to be provided. Multiply the yearly current market value of the income, support, maintenance, or services by the figure in the "average years of life remaining" column which corresponds to the client's age and gender when property was transferred.
