Background of the Current WASP 1115 Demonstration

DEPARTMENT OF
PUBLIC HEALTH &
HUMAN SERVICES

Summary of Section 1115 Waiver Authority

Under Section 1115 of the federal Social Security Act, the Secretary of Health and Human Services has the authority to approve a state's request to waive compliance with provisions of federal Medicaid law.

An 1115 Waiver must be:

An experimental, pilot, or demonstration project;

- Likely to assist in promoting the objectives of the Medicaid program;
- Budget neutral to the federal government; and
- Limited in duration to the extent and period necessary to carry out the demonstration.

States must provide a public process for notice and comment on proposed demonstration applications and extensions.

In 2022, DPHHS received approval under this federal authority; it is set to expire in 2027.

DPHHS is now seeking authority to amend and extend the WASP Demonstration for another five years.

Current WASP Demonstration Overview

The WASP is a statewide section 1115 Medicaid demonstration waiver that was first approved in 1996. This waiver has historically provided: an eligibility pathway for low-income individuals living with a severe disabling mental illness (SDMI) not otherwise eligible for Medicaid; and unlimited dental treatment services for Aged/Blind/Disabled Medicaid enrollees.

Eligible individuals belong to either Population 1 (SDMI) or Population 2 (ABD).

Population 1 (SDMI)

Adults aged 18 or older with SDMI who are otherwise ineligible for Medicaid and have income between 0 and 138 percent of the federal poverty level (FPL) and are eligible for or enrolled in Medicare, or adults aged 18 or older with SDMI who are not otherwise eligible for Medicaid and have income between 139 and 150 percent of the FPL, regardless of Medicare status.

- This population receives standard Medicaid benefits and 12-month expanded continuous Medicaid eligibility.
- This population served through this portion of WASP will now be referred to as the SDMI population.
- This population is limited to 3,000 members at one time.

Current WASP Demonstration Overview

Population 1 (SDMI) Goals

The broad goal of the WASP aligns with Montana's Medicaid program: to ensure that medically necessary care is available to all eligible Montanans within available funding.

The goal of WASP, specific to the SDMI population, is threefold:

- Improving access to mental health care;
- Improving utilization of mental health care; and
- Improving mental health outcomes for adults age 18 or older with Severe Disabling Mental Illness (SDMI) who qualify for, or are enrolled in, WASP.

Current Demonstration Summary

Population 2 (ABD)

Individuals who are categorically eligible for Medicaid under the Aged, Blind, or Disabled (ABD) category, who receive enhanced dental benefits beyond the State Plan's \$1,125 dental treatment cap. The current Special Terms and Conditions of the waiver indicate that the State Plan annual dental limit is \$1,125. As of July 1, 2025, the State Plan annual dental limit is \$1,205.

- There is no enrollment limit for this population.

Population 2 (ABD) Goal

The goal of the WASP for the ABD population is to provide individuals determined categorically eligible for ABD with dental treatment services above the \$1,205 State Plan limit.

Overview Proposed Demonstration Extension and Amendment Request

DEPARTMENT OF
PUBLIC HEALTH &
HUMAN SERVICES

Proposed WASP Waiver Extension

DPHHS is requesting renewal of the WASP Demonstration for an additional five-year period, from January 1, 2028, through December 31, 2032.

The extension request includes only one amended component.

- Per guidance received from CMS, the extension request is seeking to remove § 1115(a)(2) expenditure authority for 12-month continuous enrollment for the SDMI population. The SDMI population will no longer receive 12-month expanded continuous Medicaid eligibility. Instead, they will receive the standard 6-month continuous eligibility period.
- All other components of WASP will remain unchanged.
- See current Special Terms and Conditions.

Proposed WASP Waiver Extension

Delivery System, Benefits, and Cost-Sharing

Montana does not propose any changes to the Medicaid health care delivery systems.

- Demonstration enrollees will continue to receive services through the State's fee-for-service delivery system.

Montana does not propose any changes to benefits for Demonstration enrollees.

- Demonstration enrollees will continue to receive the same benefits as they currently receive through the standard Medicaid benefit.

No cost-sharing will be included in this 1115 extension request.

Proposed WASP Waiver Extension

Annual Expenditures

Montana anticipates the WASP Demonstration renewal to remain budget neutral, consistent with Section 1115 requirements and CMS budget neutrality policies.

WASP Evaluation

Goals and Objectives

- This extension request is seeking to extend the § 1115(a)(2) expenditure authority and does not propose any future additional goals of the WASP Demonstration Program.

Legal Authorities

- This extension request is seeking to extend § 1115(a)(2) expenditure authority for an additional 5 years and does not propose any additional waiver and expenditure authority changes to the WASP Demonstration Program.

Evaluation and Monitoring

- This extension request is seeking to extend § 1115(a)(2) expenditure authority for an additional 5 years and does not propose any additional hypotheses to the WASP Demonstration Program.
 - Montana is required to contract with an independent third party to conduct evaluations and develop evaluation design plans.

WASP Evaluation

Hypothesis Questions-SDMI

1. Does the provision of Standard Medicaid benefits coverage for SDMI enrollees impact their access to covered services?
2. Does the provision of Standard Medicaid benefits coverage for WASP enrollees impact utilization of community-based mental health covered services and psychotropic prescription drug services?
3. Does the provision of Standard Medicaid benefits coverage impact health care outcomes in the WASP population?
4. Does the addition of telehealth services to the provision of Standard Medicaid benefits coverage impact health care outcomes in the WASP population?

Hypothesis Question-ABD

1. Do beneficiaries utilize covered dental health services?

Montana uses survey responses and/or claims data to answer the hypothesis questions to evaluate the WASP.
